Appendix A - 8 Questions

8 Questions

Potential Community Champions were engaged through 8 Questions recorded on Google Jamboards. The input received served as the basis for the subsequent steps in the process, and served as a way to create opportunity for community and City to forge ongoing relationships.

1. What do you love about Tukwila? What makes Tukwila “home”?

**Public
transportation
- being able to
get places**

**The center of
everything. All
these communities
(samali, kenyians,
ethiopians, etc.) This
a good community
for us.**

**user
friendly**

**has a lot of
resources and
services that help
people. Meeting
other people, food
from multiple
places, a tailor, it's
central.**

diversity

Diversity

I love the diversity of race. What makes the tukwila a home to me are the people.

1. What do you love about Tukwila? What makes Tukwila “home”?

The diverseness because it is similar to back home.

how its so diverse and how welcoming it feels.

the people

the view, the weather, and the community

Tukwila has always been welcoming to new cultures/people.

Most of my family and friends are here and that what makes it home.

That you don't feel alienated

multiple stuff to do

The place- nice views, nice climate, beautiful landscapes and art

Tukwila is a place that's open to change for the better. People in the community are always reaching to others.

The landscape

The diversity and the amount of activities to do

The people- tons of cultures and heritages coming together in one place, getting to know them and their experiences

The diversity of the community.

Everything in tukwila is home to me

the community and all the different areas

I will always love the amount of diversity in the neighborhood and in schools.

1. What do you love about Tukwila? What makes Tukwila “home”?

Retail and food - "If you can't find it in Tukwila you don't need it!"

Diversity

it is very diverse and
i get to meet
different people
with different
cultures

access to
opportunities
and tools to
help each
other out

I love the diversity
present in the
community. For me,
what makes Tukwila
home is the memories
I've made here and
the fact this is where
my family got my first
house. It's been
almost 6 years since I
moved.

The

1. What do you love about Tukwila? What makes Tukwila “home”?

1a. What i love about tukwila is how inclusive and how rich the diversity is in our community. There are a lot of good people that come from Tukwila.

1b. And for me what makes tukwila home is how welcoming the people are. When you come here people accept you for who you are.

Small population size that allows for lasting relationships between community members. Many long-term residents and city employees have invested a lot into Tukwila.

Diversity.
Understanding.
Community.

1a. I love how anti-ethnocentric Tukwila is. We have high refugee populations that Tukwila has been welcoming throughout the years and contributing to our diverse family.

1b. It is difficult to have an ethnocentric mindset growing up since the baseline of our community consists of many diverse perspectives that we have adapted to.

1a. The diversity of Tukwila is what makes it feel like home, being able to enter the school district or use community resources and see people who look like you,

1b. go through the same struggles as you and want to help not only themselves but the people around them as well.

It has its own community that supports each other.

It has plenty to see, do, and experience.

Diverse perspectives.

What I love about Tukwila is the people, they are the heart of the community.

The natural element of Tukwila. Parks, trails, scenery that are accessible to community members.

1. What do you love about Tukwila? What makes Tukwila “home”?

I don't live in Tukwila but I probably spend more of my waking hours here. I love this community. Everyone cares, everyone engages and of course diversity is our greatest strength

I love the small town feel - also don't live here but work here and spend a lot of time in the community.

I love that Tukwila is a small town with a small town community.

"Home" is knowing my neighbors and seeing them all over the community.

I love Tukwila's diversity, and sense of community.

I love Tukwila's diversity as well! <3

Love the small community feel in a big city!

Small
Community

1. What do you love about Tukwila? What makes Tukwila “home”?

Food

Culture

Friendships

Feels like a small town with a larger cities amenities.

Great location

Small community where people can make a difference. Knowing our community members.

Diverse citizens

Community, close knit great neighbors

All roads lead thru Tukwila

Small and very diverse community.

Home

1. What do you love about Tukwila? What makes Tukwila "home"?

What I love about Tukwila is how different and unique everyone in the community is. They all have stories to tell whether it's funny or sad.

it a close community, we may not all know each other. but we know of each other.

Many different races cultures and religions

the food!

Tukwila is "home" to me because of others stories of their life being better in Tukwila, or how its a place they'd come back to.

Great response in targeting racism and current events, makes people in BIPOC community less lonely

What I love is the Diversity

I love the way Tukwila works with everyone in the community. The diversity makes Tukwila home.

The Food!

I love the community and how everyone is connected and moving forward as a community together

The closeness towards nature and the city

What I love about tukwila is it's diversity

Tukwila is made by its youth. No disrespect to the older generation. But as youth we are the movement/power.

First hand exposure towards all of the different societal changes/movements that induce open-mindedness

the fact that when you drive down the streets you see a whole bunch of people that you know and care about.

I feel like what makes tukwila "home" is the livelihood and the sense of community and support.

1. What do you love about Tukwila? What makes Tukwila “home”?

I like that Tukwila celebrates all the different cultures that make up our community.

I love that Tukwila is full of diversity.

It has always been where I grew up. The community and a lot of people have helped in so many ways. The people make the space special. Place people can connect

I love that Tukwila has a big community

The tight knit community. There is a lot of love for each other here.

**Friends
&
Family**

What I love about Tukwila is how much diversity there is and the many opportunities there are in Tukwila. What makes tukwila "home", is how everything is accessible

I love that Tukwila is full of different languages and cultures.

1. What do you love about Tukwila? What makes Tukwila “home”?

**Community makes

2. What do seniors/teens bring to the community? Why do you think valuing seniors/teens in our community is important?

Senior citizens bring different background's like some senior citizens are veterans and they can bring different stories about the sacrifices they've made.

Different types of perspectives and we can learn for each other

A lot of times seniors and teens aren't valued like they should be.

the idea of reflecting to help young people and also to provide guidance.

seniors/teens bring life and knowledge to the community.

Seniors are like the rolemodels or an influence for all the other grades.

teens bring energy and new perspectives, and seniors bring wisdom and experience

2. What do seniors/teens bring to the community? Why do you think valuing seniors/teens in our community is important?

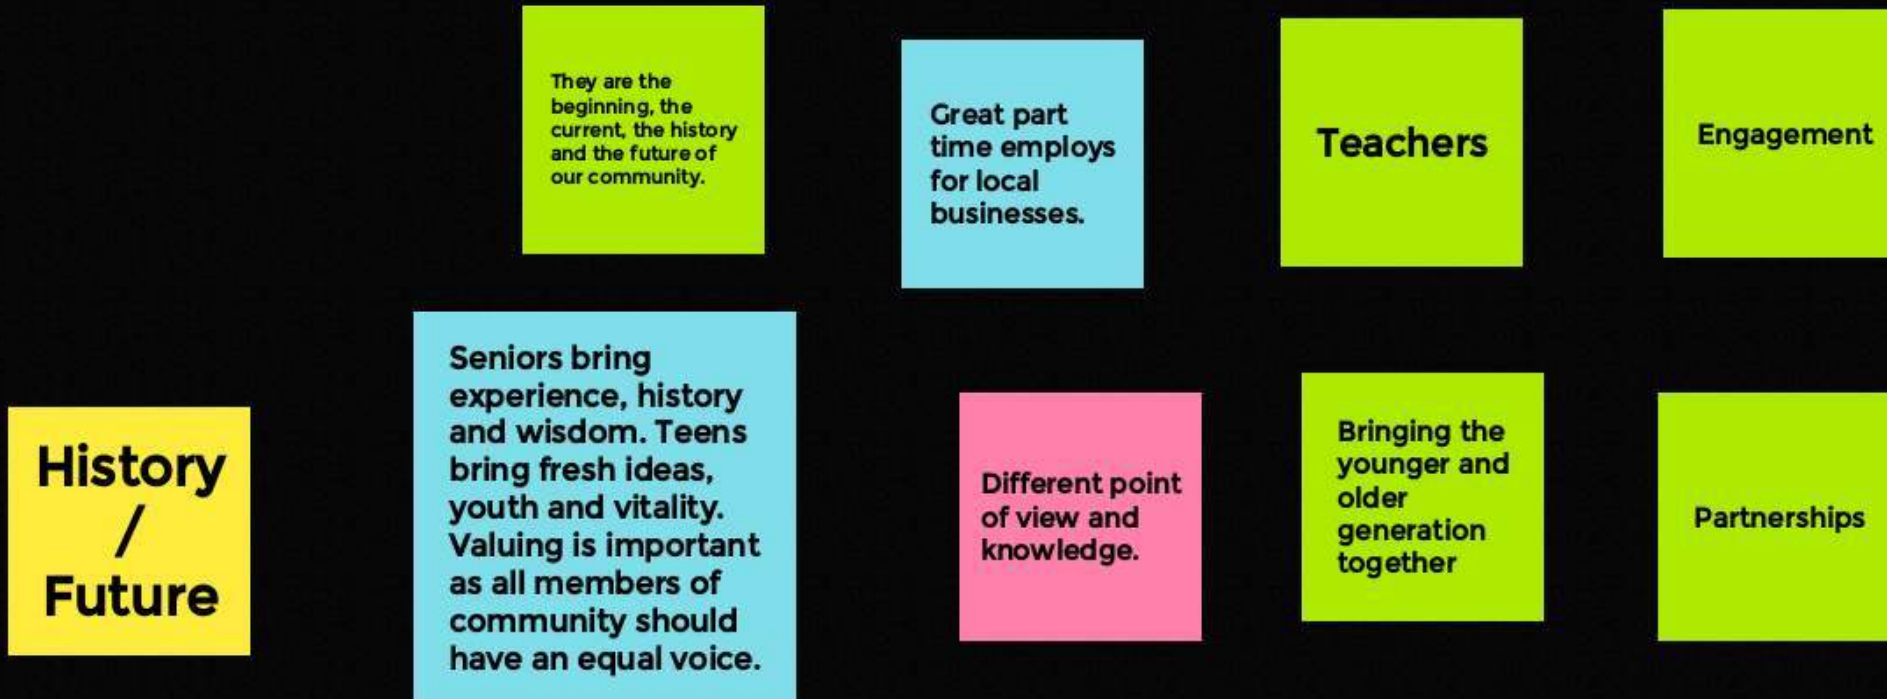

teens require basic needs in addition to food and water. these needs are belonging, enjoyment, and safety. Teens need a space where they are provided with opportunities that will help them grow emotionally/ socially.

Teens bring a fresh, radical perspective. Society can bog down people's imaginations as they get older, but youth always come up with imaginative ideas.

Teens care about the community and its future

Valuing teens is important because they are our future. We must provide them with the services they need to thrive which means a safe space, space where they are welcome and cared for.

2. What do seniors/teens bring to the community? Why do you think valuing seniors/teens in our community is important?

2. What do seniors/teens bring to the community? Why do you think valuing seniors/teens in our community is important?

Teens bring an energy and different perspectives. Seniors bring wisdom and community.

Young people bring in the enthusiasm in Activism while seniors brings knowledge and experience to the table. Both seniors and young people are equally important.

Teens bring the energy to the community. Elders bring the wisdom to the teens and teach teens some important lessons.

teens can be reckless and the seniors remind us where we come from and to make sure we know our roots

Valuing senior citizens is important because they have a lot of wisdom they can share with the youth.

No matter the age difference, we can relate to Tukwila being the main topic.

Seniors and teens bring out tukwila as more of a community rather than just a city.

Teens bring to the community new ideas and a fresh perspective on everything. Senior citizens are important because of their experience and what they can tell the younger generation the rights and wrongs from history.

oftentimes teens and seniors are overlooked. But oftentimes they are the people that spend the most time in community. They feel what is happening in the community first and foremost.

2. What do seniors/teens bring to the community? Why do you think valuing seniors/teens in our community is important?

Seniors bring experience and patience. Teens bring energy and innovation!

Hope for collaboration

Community!
Learning from the young and old

So much energy from both teens and seniors in different ways they both.

There is an lived experience that is so value in our Senior community. Our Teens have an unbridled optimism and energy need to push boundaries.

It is important to value every person in our community. We all have something of value to contribute.

Being able to connect and improve learnings and grow new relationships. So exciting to see this work

2. What do seniors/teens bring to the community? Why do you think valuing seniors/teens in our community is important?

Shared perspectives and differences in perspectives

Seniors have lived experience; they hold our history and stories.

We need seniors to share what they know

Seniors bring wisdom that needs to be taught to teens who are the future.

Teens and youth are our next generation! They are our leaders and stewards.

Pushing us to be better.

Experience and hope for the future

No patience for bullsh*t

Love THIS!

Seniors = Anchors (historical, elder wisdom)

They are the future

Generational Knowledge from BOTH! Seniors share wisdom in our community. Youth and teens are excited and engaged in new and innovative solutions

An understanding of how the world can be, not just is.

They are the next generation

Teens = Energy

They have the creative potential and the energy to match!

The gap is connecting the youth and seniors, with housing and shared space.

2. What do seniors/teens bring to the community? Why do you think valuing seniors/teens in our community is important?

Seniors can provide a sense of belonging to the teens that do not have parents with them.

The youth will realize the importance of taking care of the elderly.

seniors can learn from the young people.

young people need guidance and seniors can provide that for them. Providing a place where the teens and seniors can come together and create a place of harmony together.

A good relationship

love

seniors bring mentorship

2. What do seniors/teens bring to the community? Why do you think valuing seniors/teens in our community is important?

they can

young
people

nice
stories
they tell

volunteering

I think it would be
cool to see Seniors
working with teens
after school (maybe
reading together or
teaching crafts).

Lessons
learned

2. What do seniors/teens bring to the community? Why do you think valuing seniors/teens in our community is important?

Both bring points of views from their experiences in life that everyone can learn from and apply to in their own lives.

Seniors and teens bring leadership to the community.

I feel like the youth community brings a lot of power within new ways of structure living, such as improvement of certain things that many adults struggle.

Senior teens bring joy to the community

The youth bring up the livelines on tukwila.

Seniors can share a history or wisdom that may not be known or heard. Teens can spark a flame of need that may not be noticed by others in the community

Senior citizens contribute to society such as volunteering, helping and caring for others

2. What do seniors/teens bring to the community? Why do you think valuing seniors/teens in our community is important?

seniors/teens bring new point of view in things.

We create the future as youth but we still need the old heads to look up to like Mr.Duffy the goat

seniors bring inspiration and teens bring fresh view. valuing them in our community is important because teens are the future and seniors deserve respect

Seniors/teens together create an intergenerational community which is necessary for a community to grow. We can't move forward without understanding the past.

Culture and ethics, why people do certain things and mostly people say they do it for the community or family.

Seniors bring experience/stories; teens bring fresh ideas and projects (both do both, but you know)

They all come from different backgrounds and so that makes the community more diverse. It is important because it makes others feel to stay in this community just by seeing some people like them.

Seniors can advice teens. teens can help make tukwila a better place by getting involved in the community.

It's important to value teens/seniors because of their experiences and knowledge

Seniors/teens bring new perspectives to the community.

It's important because we need something for teens and seniors to do around the area

2. What do seniors/teens bring to the community? Why do you think valuing seniors/teens in our community is important?

Mentorship opportunities both ways

Teens remind Tukwila to KEEP IT REAL

many can be isolated easily

Both communities are great advocates for themselves and the broader Tukwila community.

The best of multiple generations

Giving teens options and hope directly improves community safety

teens and seniors help create a whole community

Especially in Tukwila, seniors have an amazing spirit and humor!

teens still believe we can change the world

teens add energy!

fun and variety

The history and the future of the community

Multigenerational interactions don't happen in every household

they really care!

Differing perspectives

Teens need a place to play in addition to TCC

stories are inspiring

Community cohesiveness

Roots

Seniors bring their lived experiences

seniors have experience

creativity

Young energy, new ideas/innovation

Teens can help seniors young at heart

Government accountability to different demographics

2. What do seniors/teens bring to the community? Why do you think valuing seniors/teens in our community is important?

profit

Awareness

Valuing seniors/teens is important because teens look up the seniors and learn from them.

We can bring difference because we are the future of something great

Because their engagement with each other allows them to connect with both worlds

Livelihood

Everyone brings some sort of history and background to the community.

experience from different people and being able to give good advice to the rest of the community.

Give the child and the older adult a sense of purpose. Help to alleviate fears children may of the elderly. Help children to understand and later accept their own aging.

I feel like we can bring different experiences to the table and we can learn from each other. I think it's good to have a balance.

Role model

Seniors and teens bring in new perspectives. The difference in ages allow for various experiences, and both can learn from one another.

Seniors have experience and know how things work in a community. Teens bring new ideas and new concepts for the community.

2. What do seniors/teens bring to the community? Why do you think valuing seniors/teens in our community is important?

Both groups have something to give each other. For example - teens helping seniors with computer equipment - seniors doing a life study for teens to learn from.

Balance - All need to be represented for there to be balance in decisions. Teens = energy, curiosity - Seniors = experience, resources.

community involves knowing others and feeling apart of the community We can all learn from each other

seniors and teens have different experiences
Keep it simple

If we can communicate with each other - then we will feel safer with each other.

Teens bring innovative ideas around entrepreneurship and community involvement activities.

2. What do seniors/teens bring to the community? Why do you think valuing seniors/teens in our community is important?

Respect

Building self esteem in both groups.

MENTORSHIP

Patience

Young people can work computers and help others

Seniors have a positive presence. Showing love and respect to each other

Both groups need the positive interaction

Teens can help us feel younger

Bringing the past and the future together.

Seniors need to learn more about what the teens concerns are. They are a link for us to stay current and connected.

Career advice for young people.

Listening the stories of all of the residents have changed my life. Seniors have experiences that we can learn from.

Having other people in their lives besides their parents.

Teaching cultures - Black Fathers Day event. We bring a lot to the table. Learn to respect each other.

We can learn from each other.

Seniors make good role models for teens

2. What do seniors/teens bring to the community? Why do you think valuing seniors/teens in our community is important?

Seniors bring safety and teens bring fun

Love to have a conversion with seniors. They bring lots of fun.

Both seniors and teen use services such as shop which will bring jobs to the community

the teen is the future. We're indebted to our seniors for what they have created and passed on to us. They are part of our community. No society does do well, without including all part of its community.

Teens need investment and activities to keep their mind growing and flourishing

balance

I see lots of teens are responsible in Tukwila. They participate in lots of community events.

Teen participate in Sports. Sports brings community members together.

1a. Seniors bring wisdom and experience. The blending of the past and present is an amazing thing to see. Often, seniors are forgotten and giving emphasis to their visibility is so important.

1b. With teens, we need to guide them and have places for them to go and be creative.

We need to invest in teens as they are at their prime age, could get distracted. and we need to help them focus their energy on what is healthy, safe and on creativity and innovation.

We need to provide teens an outlet for them to be positive contributors to society and getting them involve keeps them away from trouble.

Seniors bring wisdom and a sense of stability. To have an elder person roam / walk around and correcting teens action feels good

2. What do seniors/teens bring to the community? Why do you think valuing seniors/teens in our community is important?

1a. Commonly, the longer you have lived, the more experiences of life you have seen. Senior citizens of Tukwila contribute to plans of how Tukwila can continue to be a safe and warm community,

1b. and how to strengthen it over the years.

What seniors and teens bring to the community is a lot of life and positive energy into our neighborhoods. Personally I think if we don't have both, the world would be a boring place.

I believe it's important to value our seniors and teens because the teens are the future and our seniors are the pioneers deserving so. Both should be respected and dealt with great care and love

Teens & seniors are often left out of community discussions in favor of working-age adults. Bringing both of these groups together would give a voice to an oft neglected group

Teens bring youthful energy, creative ideas and strength to understanding now more than ever social, emotional, physical and mental injustices seen in our community and around the world.

1a. Seniors and teens are often overlooked and taken advantage of. Teens are susceptible grooming, being labeled as rebels and acting out without any knowledge of their home life.

1b. Seniors are weak and the older they get the more their strength declines allowing them to get robbed, abused, or simply even abandoned.

Seniors - life skills and direction Teens- Fresh Faces able bodies and creativity. It's important to value every member in the community they play a part.

The youth right now is the truth right now. The creativity youth has been vocalizing and highlighting these years is inspiring. I believe they can contribute new ideas to the community that we have not ever thought of.

Teens are the future of Tukwila; they bring new incites, fresh experiences and voices.

Seniors are the backbone of a strong community, through guidance and experience.

It is important to recognize the value that both seniors and teens have because they are some of the most vulnerable members of our community, yet some of the most important

Seniors bring to the community knowledge, experiences, and networking people. We learn from our elders and build off of their knowledge to adapt to our society.

Seniors have lived through many of life's peaks and valleys. They can offer younger people guidance about how to navigate different challenges.

Teens have the potential to contribute many great things to society but are often not given proper encouragement or guidance at a pivotal time in their lives.

2. What do seniors/teens bring to the community? Why do you think valuing seniors/teens in our community is important?

Connecting generations in that way allows everyone to better understand each other and get along.

Teens bring fresh ideas

seniors bring story and advice

teens bring new perspective and point of view

both generations come from completely different values growing up, cohesion and collaboration from these different in-groups is necessary to avoid high uncertainty avoidance

Wisdom

Because seniors are humans too

They have perspective we as youth don't.

We are building on their foundation.

seniors can learn from teens as much as teens can learn from seniors

creates a pathway to gather what has been the most prominent experiences in tukwila, what truly makes tukwila tukwila and how long has it been this way.

2. What do seniors/teens bring to the community? Why do you think valuing seniors/teens in our community is important?

I think it is important to value teens and seniors because we are two groups who are very different but we are both two groups who are a part of this community.

They bring unique skills with each other and they are willing to help and make the community better.

teens are our future. We need to keep them in our community so they can give back with an understanding of what WE need as a community

making the community better

Willing to be helpful and giving a lot of support to each other

I think teens bring helpfulness and volunteer skills to the community

they have unique skills

a vision

they bring out vision and working on it

maybe a sense of safety

I think it's important to value the senior because we are capable of doing things that seniors can't do sometimes.

passion

I think it's important because they are able to have homes.

What we bring to the community is youth? I feel like we bring some joy and some happiness to the seniors by reminding them of what they used to be.

they are willing to be helpful

thinking about the future

I feel like it's important because we somewhat make a home to the younger generation.

3. Are there any things that can be done to serve you and this community better? If so, what are those things?

We need to be intentional about providing ELL supports in the buildings and spaces that we are creating. We need to make it easy for people communicate.

Proximity - we need to have everyone in the same proximity. Removing barriers to bringing people together. Facilities and transportation (barrier examples)

I would love to see more generational collaboration as a community. Senior partnering with our youth, and vice versa.

I would like to see more of a desire to learn more about the people in the community. For example - a desire to learn another language.

We offer a lot of things, but I don't feel that we offer enough for me. I feel like we are missing a group of people sometimes. (Example - People that are getting ready to be seniors)

3. Are there any things that can be done to serve you and this community better? If so, what are those things?

3. Are there any things that can be done to serve you and this community better? If so, what are those things?

leadership to value equity and justice over reacting to loud residents

Community events & festivals

more language and related assistance for small businesses to access non-city resources

Stronger partnership with TSD so we are better leveraging our collective efforts for the community.

lower cost/easier access to broadband for entire community

Understanding culture difference particularly for women who cannot even read and write in their own language. Often times translation does not work.

Learning opportunity: Many families who are newly resettled in Tukwila don't even know how to use the check out machines at the grocery's store, so learning about City gov is overwhelming.

Language access

Continued emphasis on community engagement

a walkable "main street" type of neighborhood

Another place to communicate happenings and resources in person

an emphasis on long-term relationship building

better transition planning and employee retention

opportunities to facilitate community members meeting each other

tools for providing culturally appropriate services

opportunities for small businesses to gather for networking and learning

Preparation to be resilient to disasters

Protections and programming for marginalized populations

Develop partnerships/sponsors with local businesses for mentoring opportunities.

Building a Tukwila identity that embraces all

decision making that serves the greatest good

3. Are there any things that can be done to serve you and this community better? If so, what are those things?

Access to telehealth. How to communicate with your healthcare provider

Provide funding to people and organizations that can close the access gap for technology. People can help community learn how use technology in their native tounge.

Health Care, Social Services

Bring more awareness of all of the resources and services to people (seniors) who do not know what is available to them.

Improve the use the of technology. Providing more access to and education for technology.

Housing prices are too high. Need to come back down to move back.

more affordable senior housing. Shag is not affordable.

A gap of communication with Language. Seniors who are not able to speak english are in a very tough situation. If there is anything that can be done to help people in that situation

Example - someone is hurt and goes to the doctor and needs to go back for review. Hopelink, Access are resources, but many people do not know that they have access to these resources.

Culture, arts, health and wellness, safety, civic engagement, leadership==are some of the areas for programming

make the street welcoming by having ethnic arts

Creating spaces for more local small businesses to thrive and grow

1a. Space. Space for teens, space for seniors, space for community in general. The physical space is the starting place, then followed by adequately funded culturally

1b. and linguistically appropriate strategic programming where teens do competition in arts, culture, learn about civic engagement,

Affordable housing and street patrols

community building events hosted by the city of Tukwila

Adding more community events, especially for Kids and teens.

having patrols from the community it self(police from the refugee and immigrant community)

3. Are there any things that can be done to serve you and this community better? If so, what are those things?

For me I would love to see more youth development programs, more teachers of color that represents our community, and more resources when it comes to mental health services.

Mental health care. The youth, but more generally the community of Tukwila, has been desensitized to trauma that has affected to members of Tukwila.

An easier way to access community resources, ways to help find and contribute to projects in the community.

Housing. Houselessness continues to be a predominant issue, and specifically calling out churches, there needs to be a greater collaboration for tithes/offerings to focus on local issues like this.

Maybe food bank services closer to TIB or just better access through transit lines.

At Risk Programs. Youth in Tukwila are at risk to gang and violence exposure. Incorporating these programs can help prevent the school to prison pipeline.

Increased city government, organizational, and resident effort toward river clean-up and Duwamish restoration.

Police involvement and introduction. Trash Clean Up. Mental health check ins. Homework and studying / learning.

Honestly overall just better transit lines throughout the city. Ex: bus lines to the community center in Allentown

Basis of trust is found in relatability. Tukwila PD officers predominantly don't live in Tukwila. It is difficult to connect with a community where you do not come home too. We need officers NATIVE to Tukwila.

Community center daycare and summer program help families focus on whatever they need to do to provide while giving them reassurance that their kid is also getting their needs met and properly being cared for.

1a. Access to dental services and mental services specifically because mental health affects what you eat, how much you're eating, how you feel after you eat.

1b. Dental health correlates to mental services because they could be getting cavities and more issues based on the type of food they do or don't eat.

3. Are there any things that can be done to serve you and this community better? If so, what are those things?

3. Are there any things that can be done to serve you and this community better? If so, what are those things?

I am in a position to be able to be of service to my community, and I am grateful for the many, varied opportunities to do so!

I would like to see more opportunities / projects for Seniors and Teens to work on together.

Teens make great IT support/tutors for Seniors.

Inclusive community, the Teen Senior center is an awesome idea. Would love to see all the Tukwila Community come together

Communication is huge and hard. Going to where people are and doing this outreach is huge. Thank you

3. Are there any things that can be done to serve you and this community better? If so, what are those things?

Businesses that give students opportunities to work/intern.

Do something different with the golf course space. How many Tukwila residents actually use the course?

Eliminate processes that are too complex

Access - Connecting Tukwila is important to me

Toddler Parks

Bring services out to community - like the parks and rec in the park - providing connections to city and resources.

Transportation

Ensure voices are heard; address what voices are asking for

Yes to more sidewalks!!!!

I want our youth to think big! It's time our youth say "yes I can"... I can go to college... I can attend law school... I can start coding.

Multiple ways to reach out to community- media, online, mail, door knocking and word of mouth!

Eliminate the perception that businesses are more important than the residents.

A Go-To resource center with multiple ethnic liaisons?

Center the voices of BIPOC youth in ALL OUR DECISION-MAKING PROCESSES. If we are planning for the future they must be involved in the process.

This is super concrete (see the pun?): more sidewalks! To connect different areas of the city and encourage everyone to be outside. Being able to walk to the center from many areas would be great.

More Basketball courts, soccer fields...invest in things that we do in TUKWILA.

More opportunities for engagement with wider community. Going out into community --meeting them where they are at.

events that allow cross cultural experiences

More events for community to come together.

More events for parents to bring their children

3. Are there any things that can be done to serve you and this community better? If so, what are those things?

Setting up more multi cultural interaction opportunities.

A safe place for teens to go close to the high school and middle school.

Cultural celebration days that showcase our community.

More unified approach to projects. Community extends beyond political boundaries so collaboration between areas and districts is important.

More community events outside of Southcenter.

Grocery Store

Crime prevention

Opportunities for seniors and teens to connect and reinforce the importance of community collaboration. Community is stronger when everyone supports and plays together

Safe Place to be able to walk around TIB

3. Are there any things that can be done to serve you and this community better? If so, what are those things?

volunteering

Maybe more opportunities about activities like clubs or workshops post-graduation

value the community over southcenter

Cleaner water supply

I seen a couple small immigrant businesses get torn down that people in the tukwila community have been going to for years and I feel like fighting gentrification in our city is important

realize even though we have a large population growth, that it can make it harder for those who are continuously fighting injustices.

More homes/projects for the homeless

provide paid opportunities and internship for young people that are aligned with their interests.

Support small businesses and immigrant businesses.

i feel even though this is for the students in our community, that we should still be open for any student in or out of our community can get help.

Continue to have discussions about gentrification in Tukwila, especially the historical portion of Tukwila

security is a bit on an issue in tukwila so that would be something that could improve.

3. Are there any things that can be done to serve you and this community better? If so, what are those things?

1a. I believe that one way our community can assist is that, for example, the only reason I was accepted to college was because of the assistance I received in the application process through the trio program.

1b. However, for some students, it felt as if they had no assistance. It is the belief that you will only receive assistance if you seek it. As a result, having places that assist seniors is critical.

**providing
a safe
space for
people**

**Make sure our small
businesses and
immigrant
businesses are not
pushed out of the
community.**

**Affordable mental
health services and
educational
opportunities (about
mental health) for

**including

**One thing that can

A place that will have resources for those in need.

Be a teen or a senior.

Teen and Senior centers should serve the community of the time- use and space should be universal, fluid, and dynamic that can adapt as our community changes.

To escape home life if it is not the place to be

Homework help

Probably a quiet space or an area that has a strong work ethic environment like a library or something like that.

For awareness spread of various issues to fix and solve alongside health resolutions that we could elevate from previous standards

Space for meditation or reflection

A space for mental support as a lot of elders/teens lose that support.

People can bond thru sports so basketball courts swimming pools and soccer fields.

resourcefulness. being in a main hub

To be in a positive space around other positive people and a calm space. I would use the space to make everybody be happy and positive all the time.

A place to empower young people to address community issues.

4. What would make you want to use a Teen & Senior Center? And how would you use a Teen & Senior Center?

Having a connected interest in programs, relationships, and opportunities. I want to see Center be for personal and community growth.

I would need to be a teen or senior!

Community collaboration all inclusive.

I love the idea of combining open time and space with organized time and space.

I would love to help program activities or facilitate work. Connecting teens and seniors to events and activities in the community and framing current events and projects

4. What would make you want to use a Teen & Senior Center? And how would you use a Teen & Senior Center?

bored games and other games like pool table and pig pong table.

Tutors and fun activities to help us distress.

everyone from around to join us to make more friends

Game or sports center

The Teen Center from my old community had a skate park, pool and fooseball tables, lots of different gaming systems, and even a studio space with instruments. They also provided free breakfast and had lots of fun events at night.

Maybe having a way for the teens to volunteer with the seniors--maybe playing games together!

Fun activities such as basketball and video games. I would go over just to spend time with friends and family.

Tutors and school related help

tutors that speak different languages!!!

Possibly use it as a space to hang out with friends, have a common study group, or just have small group activities!

a place to chill with friends or just to get some quiet time

Having a fun place to hang out with friends and help each other with hw and / or study together.

A place like a field to play soccer or a basketball court to improve our skills physically.

having it be somewhat like tcc, a place for kids to hang/do hw. since ppl used to get in trouble for hanging at the library

I guess fun activities or food that would want them to come visit since teens love food or video games

Making new friends and having a safe place to hangout

Fun activities, events, homework help!

VIDEO GAMES!!

Homework Help , meditation

a park specifically for seniors

karaoke

4. What would make you want to use a Teen & Senior Center? And how would you use a Teen & Senior Center?

We should have a space open for seniors and teens to teach each other

how can we create a atmosphere that feels different than TCC? although TCC is a space for seniors and teens, there's a divide, how will this divide be resolved at this center?

seeing intersectionality among the staff capable of welcoming all people in Tukwila accordingly

4. What would make you want to use a Teen & Senior Center? And how would you use a Teen & Senior Center?

I believe the space can be a safe haven for both seniors and teens to have a good/safe time

I would love for the space to be used for teens and seniors to have a good time, a place that can be education and informative, and place where they can get services for their needs

1a. I want to learn and connect with the youth and elders in the community. Both of these groups have more than we know to bring to the table.

1b. Both are filled with experiences and creativity that can formulate positive, big plans for Tukwila.

Great space for networking. Networking promotes growth in our personal lives and careers.

Financial literacy classes

Mutual book exchange.

Efficient/Open spaces. Community Input. Life Skills Home Ec. Introduce kids to new things. Financial literacy. Life skills.

Plenty of programs: things ranging from activities revolving around specific interests to programs aimed to help those in need (meal plans, homeless issues, etc)

Accessibility.

Career counseling. NOT just college focused. Technical and trade-based training for teens.

Organizing community events focusing on helping teens and seniors.

Mentorship service for students with missing parental figures

Having a childcare service that interacts with elders. Examples: nursing homes with daycare for children

CPR aid classes

4. What would make you want to use a Teen & Senior Center? And how would you use a Teen & Senior Center?

**Drama club

4. What would make you want to use a Teen & Senior Center? And how would you use a Teen & Senior Center?

Health and Education classes for teens, seniors and all who reside in the community

Extracurricular activities for teens such as tutoring, sports, team building

Activity centers for both teens and seniors

Health education for both teens and seniors

After school activities for teens where they can explore their creative skills and create things.

it can be a place for seniors to have talk or story telling time with the youth to learn more about their culture especially for kids who grew up in the US.

Seniors get together and have their talks, cultural events,

Again, Safety

language classes with some volunteers from community.

1a. hope that the teens center will provide a welcoming environment for teens to learn, create, innovate, inspire and inspired. Lead competition among teens in the areas of art, culture, music etc.

1b. Organize workshops, seminars, townhalls to invite guest speakers of successful individuals from community to share their experience, inspire and serve as examples.

1c. Use the center for civic engagement including leadership training, bring police and teen together, arrange for city internships etc.

I would be more attracted to well kept clean place.

making it educational for both group and other ethnic groups to raise an awareness of some differences

it will serve as the place to connect the seniors and the youth and everyone.

4. What would make you want to use a Teen & Senior Center? And how would you use a Teen & Senior Center?

If the center allows
for both age groups
to interact and have
fun. There can be
resources, such as
homework help for
students or rooms
for seniors to rest.

4. What would make you want to use a Teen & Senior Center? And how would you use a Teen & Senior Center?

attend joint meetings, classes
Have celebrations ie seniors graduating HS. Provide mentoring

Having Teens be guest speakers for groups of seniors and vise versa.

I would like to see guest speakers come and speak to senior groups. (example - pharmaceutical department @ the UW)

giving both teens and seniors a voice with city council

would support teen & senior talents ie writing, music, story telling

1a. Would love to see seniors and youth honor each other and their accomplishments. For example celebrating our seniors and youth celebrating their transition to adulthood.

1b. Learning how to tie a tie and other skills that prepare youth for formal celebrations etc.

I would like to see some programming for people who entering the senior age range.

Creating opportunities for Teens and Seniors to be together. (interaction - working the phones or how to prepare for the future)

4. What would make you want to use a Teen & Senior Center? And how would you use a Teen & Senior Center?

a place to support people's mental health

Providing people who can support mental health (professionally)

a place to meet new people.

Activities for seniors to connect with each other.

A place where a lot of services are offered. Training, having fun, socializing, dancing, counseling. A place where I would leave home to join a different atmosphere.

volunteering

teaching someone something and being taught from others.

I want to be social with others. Seniors can get lonely as they get older.

expensive and we
know that there are
many people who
would want to make
art but cannot
afford the supplies.

4. What would make you want to use a Teen & Senior Center? And how would you use a Teen & Senior Center?

A maker/creative center, with resources (recording spaces, craft supplies, 3D printers, etc) for folks to work on art/stem projects in the same space

meeting new people

board games

diverse amount of programs

make the space feel welcoming, teen nights, field trips, volunteer opportunities.

spend time with friends

to play basketball with other teens and make new friends.

a place to play sports

job resources for teens

4. What would make you want to use a Teen & Senior Center? And how would you use a Teen & Senior Center?

Fundraiser for programs

Joint art projects with teens and seniors

Exciting things going on

Opportunities to gather with others with the same interests (music, gardening)

Music opportunities

Drama - theatre opportunities for both - seasonal shows

It offers things no other community does!

A chance to talk with City Government, First-hand experiences with those that represent the community

Room for Youth Voices

Great programming

Information hub - where to go to find things for both communities

Storytelling events Senior/youth

Citizenship Classes

Friend Speed dating to meet someone new

Brings people together for common good

Common good classes

sports

internship opportunities

What if I'm not a senior or a teen?

Tech access

Financial and wealth planning

music "jam" sessions

Build bonds with seniors and teens

Opportunities for mentoring -- Seniors can give homework help, teens can show Seniors how to use their phones :-D

ART ART ART - digital and good old fashion painting - bring the two together - seniors teaching art from their past and vice versa.

Discussion topics co-developed by teens and seniors

4. What would make you want to use a Teen & Senior Center? And how would you use a Teen & Senior Center?

A safe place that provides cultural, academic and sports-related activities for my kids would be very valuable - both drop in and organized.

I would want to play music or video games with people of different ages

Use it to tutor, mentor, educate both seniors and teens. Huge opportunity to connect with police in a positive way.

Providing shelter/feeding during disasters

access internet

Visit a spot that had programming complements the library and community center, depending on the proximity to both

trainings

Sewing classes for Women/Elders (ESL to be incorporated)

drop in for coffee

Fun events - music, food, mutual aid

exercise classes

art exhibits

Community Connectors and High School Internship Program

Cross cultural cooking classes, PLEASE!

Tutoring for students

Internet and computer access that isn't a super quiet environment

Gathering place

For teens, anti-bullying policy and enforcement behind it

Resource center for teens and seniors

For seniors, fun activities with an opportunity to try something new

5. What kinds of spaces bring you happiness and why?

Spaces that encourage growth because they act like a catalyst

Places that make me feel comfy, casual, and relaxed (stress-free)

Accessible spaces, spaces i know where and how to get to and am capable of accessing it easily

Spaces with a variety of ages within the staff team

Spaces with food

Places That Support Physical Activity

Spaces WITH MUSIC

mentor

just relax

someone to talk to= free

Basketball courts

Quiet Spaces

Open-minded spaces

Restaurants

Spaces that support learning ie; spaces where curiosity, skepticism and free-thinking are promoted

community spaces

5. What kinds of spaces bring you happiness and why?

An open space that allows for gatherings, places that produce all types of fun events, and places that include sports

Something where I learn skills that I can use in my daily life. BIPOC Leaders and people in power. Always changing and evolving art work and activities.

An open setting that allows for gatherings of people who share similar interests, yet allows for freedom of movement.

1a. Being around BIPOC. BIPOC individuals always have to explain themselves in the real world, but when we're surrounded by folks that look like us,

1b. we are relieved of explaining and can just simply talk and share our thoughts because there's a collective understanding.

Cozy and homey spaces provide a sense of warmth and security for those who often feel uncomfortable in large groups

Being outdoors, away from technology. Our world necessitates the use of technology, which improves efficiency but is mentally draining. Getting away from tech helps recharge.

Reading outdoors in the sun because it produces a calming effect. Provide blankets, baskets, engaging and relevant books for folks to read.

Interactive architecture that challenges conventional design. The more odd looking a building is the more likely I would want to explore what it actually is.

Wine tasting produces relaxation. Samples of free wine for people to enjoy. Daily glass of red wine is particularly good for the heart.

I grow indoor plants and studying around those plants makes me feel calmer.

5. What kinds of spaces bring you happiness and why?

**Calming
spaces that
help revive
the mind.**

**open concept,
natural light,
accessible,
welcoming
encouraging,
inspiring.**

**Community
collaboration. Either
teaming up for a
cause or just overall
teamwork to make a
better community.
Either an open place
or a place to gather.**

**Recreational
and
Educational
Settings**

**A space to

**Places that bring
me happiness is
where laughter, joy
and compassion are
shared among the
entire community.**

**The
outdoors
and
water.**

Swimming

**Walking
trails**

5. What kinds of spaces bring you happiness and why?

Basketball court (team and pick up games)

football field

spaces that celebrate me and my community

dance, music just a fun environment for people to come together and have fun

Plants/garden, arts of various forms, express, projects and health such as workout, yoga, taichi, Qi gong, meditation, or just coffee, tea/herbal tasting for detox of mind body and soul

Playing any type of sports or having fun in general is happiness. Also, being in a positive setting or being around happy people in a space brings me happiness.

places with food

open and closed... being able to be outside and inside and feeling good in each space

Like the other person said. Places with good food.

Outdoor spaces especially out in nature or quiet settings is what brings me happiness because I get to be alone in my own thoughts and take time to reflect

quiet place ,chill for meditation

A space where people can draw or write down ideas.

security/safety

5. What kinds of spaces bring you happiness and why?

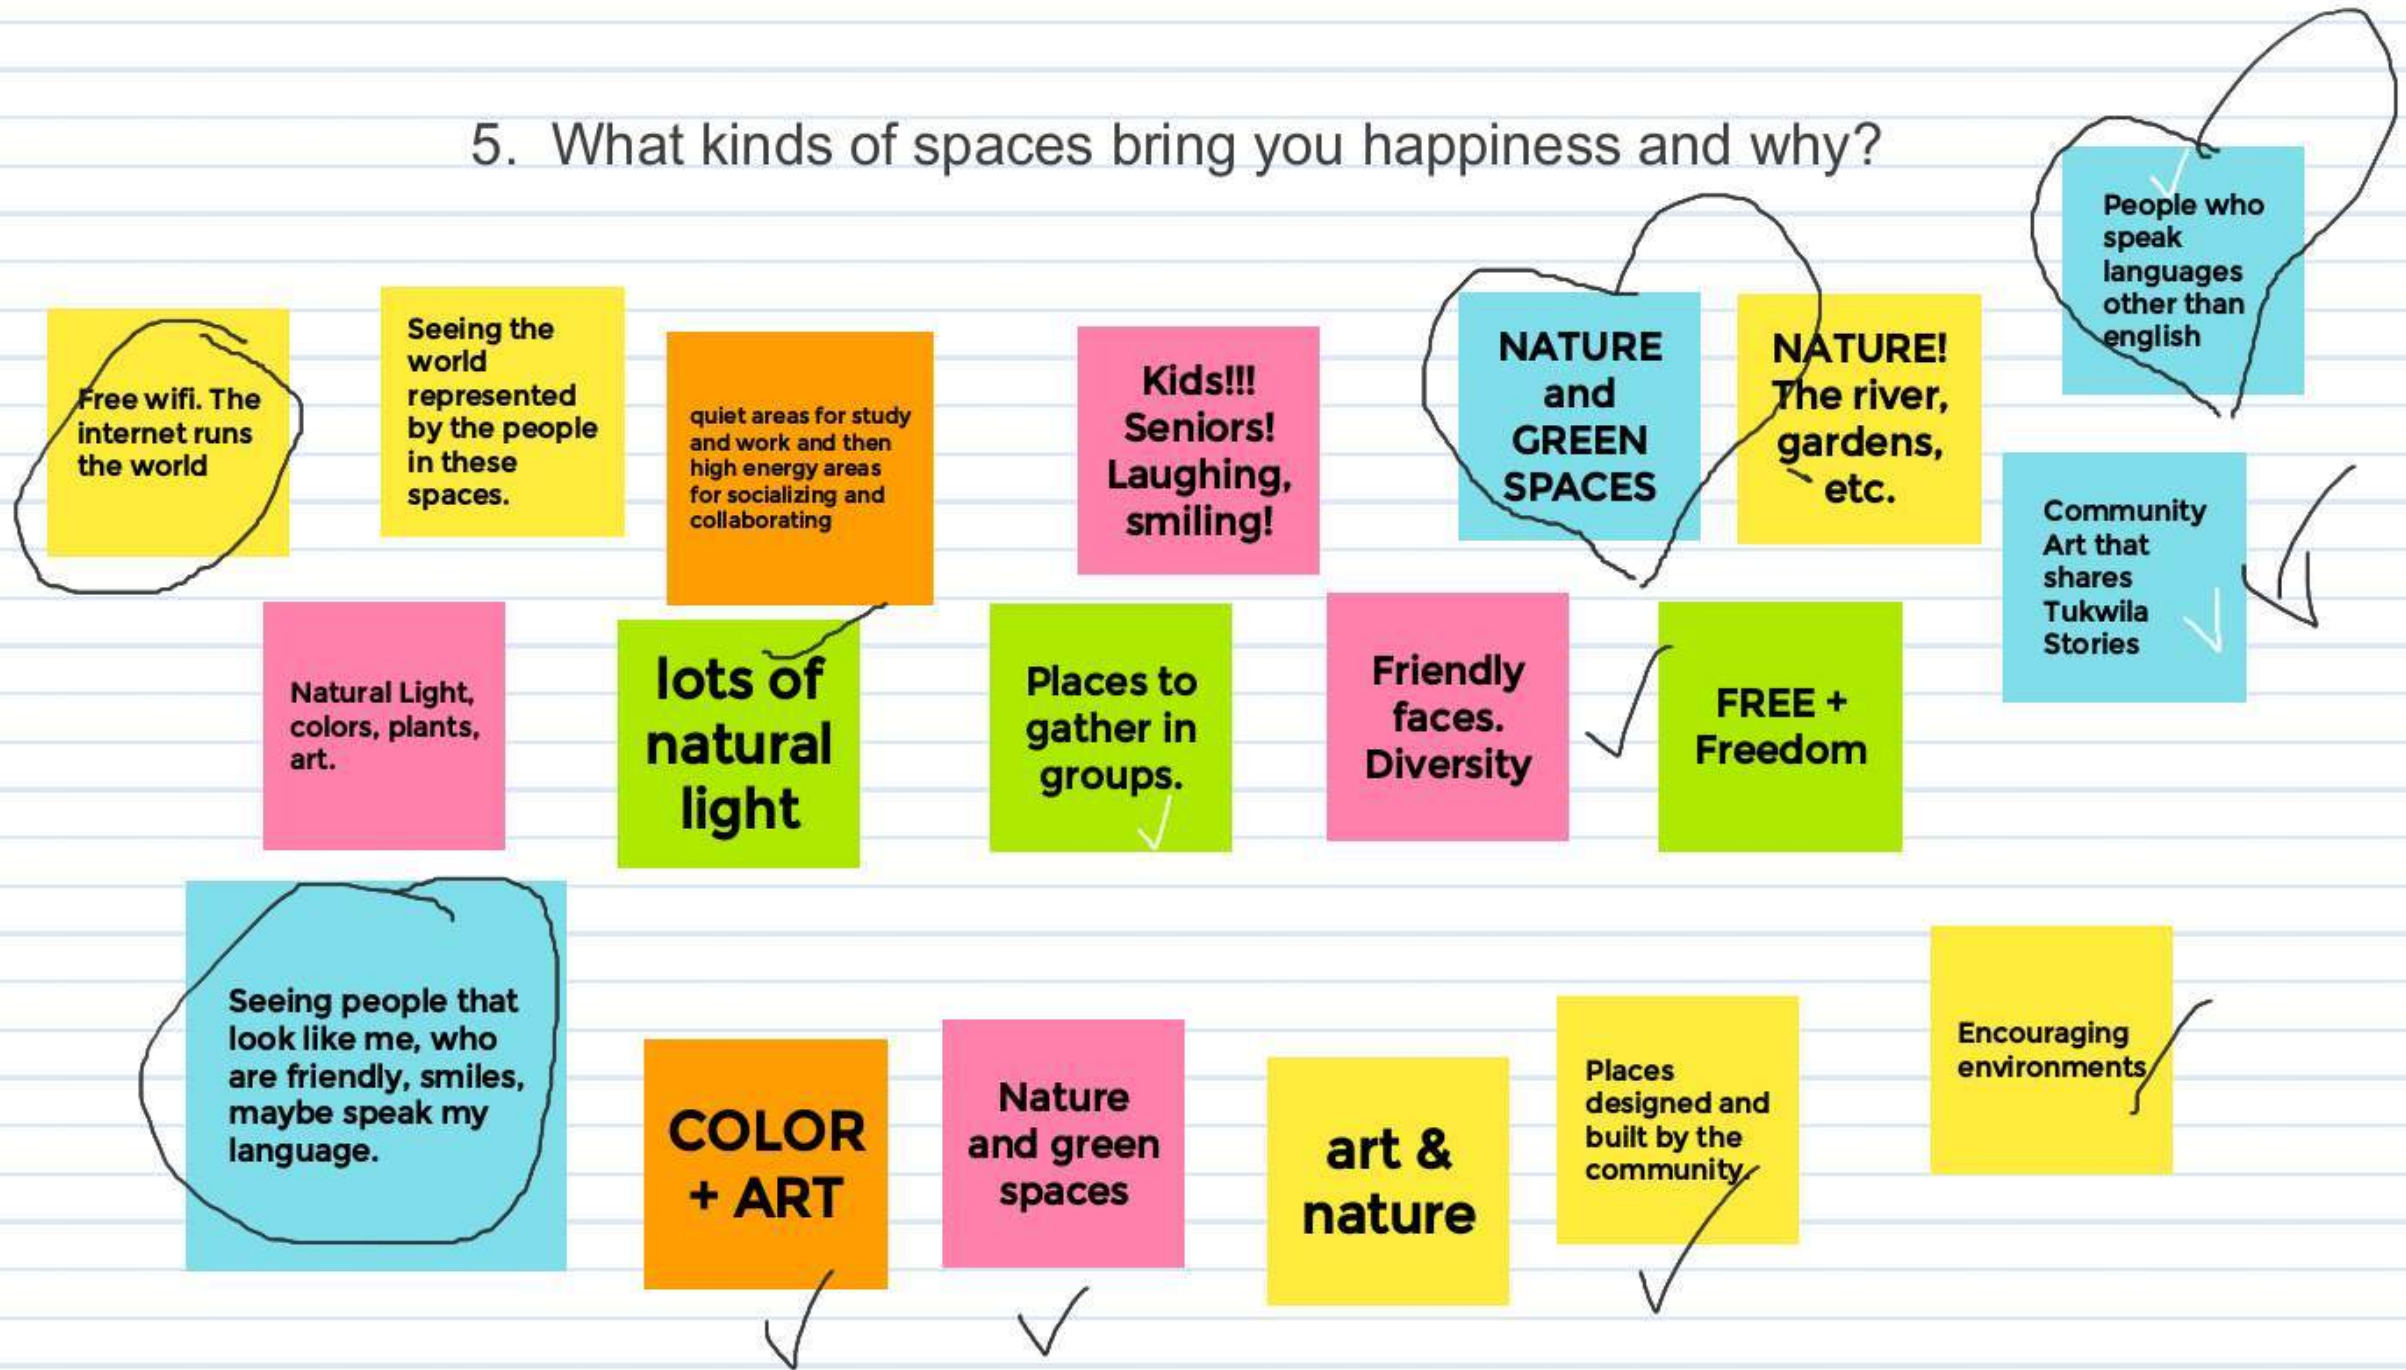

Quiet, outdoor spaces, bright colors, natural light.

Open spaces that do not constrict ideas and dreams.

Activity center similar to the Community Center adding a swimming pool and water safety programs

**Art activities.
Entrepreneurship.
Space to be open, free and dream.
You're never too old or young to dream big. Let's dream big!**

5. What kinds of spaces bring you happiness and why?

5. What kinds of spaces bring you happiness and why?

Communal spaces, where you can get to interact with others

Also private studying or mindfulness spaces that are quiet and calm

Dance studios because you can express yourself with movement and music.

places with inside and outside access

places that value the community and the different people in the community

believe that being with friends makes everything better. And places I enjoy visiting, such as a movie theater or simply going out.

5. What kinds of spaces bring you happiness and why?

**Spaces
without white
people/white
dominance**

**Safe
space
without
police**

**Not having to
worry about
my blackness
or my safety**

6. What is your hope for the Tukwila Teen and Senior Center?

I hope that this center serve's a persons needs in order to do something useful within this very center.

I hope that both teens and seniors will take advantage of this space. There should be a sense of safety and refuge

For students to feel safe. For them to know that they can get support.

a space where students can get support and get connected to resources (college, financial, jobs, etc.)

a place where teens and seniors could build connections

For them to have fun and enjoy the company of other students.

This will be a place that students and others look forward to attending. Places in the center that assist students with tutoring and are enjoyable. Where students can get assistance

6. What is your hope for the Tukwila Teen and Senior Center?

Safe space for everyone especially BI-POC and LGBTQIA community

meeting the social of the teens and the seniors. Examples - a place where chill and get homework done.

Hire a diverse staff

Partnering with organizations made by people of color, for people of color to create safe spaces and the ability to experience the outdoors while feeling at ease

Youth should lead activities

6. What is your hope for the Tukwila Teen and Senior Center?

A place for teens and seniors to learn, feel useful, and to be active.

Safe space, free counseling, volunteer events, clubs

Citizen involvement

A place that can support individual and shared growth through education and self exploration.

After hour programming

That it not only provides a safe space, but that it enhances and promotes a healthy lifestyle- with active opportunities incorporated by design and that all entities collaborate to provide the best solution

A success indicator is that it is over capacity all the time!

Help teens and seniors thrive, feel supported and participate in the community.

6. What is your hope for the Tukwila Teen and Senior Center?

SAFE

Somewhere
away from
violence

welcoming to
all teens and
seniors

**Fun but
educating**

Making sure the
community
members don't feel
excluded no matter
age, gender, race
and religious beliefs.

I hope the teen and
senior center will be
a happy and positive
space for everyone
that goes in and out
of that building.

Inclusive
space that can
be use by
anyone

Where people
of different
backgrounds
can connect
with each
other

**connect

6. What is your hope for the Tukwila Teen and Senior Center?

To be a neighborhood hub for social gatherings, neighbor connections and community projects.

I would like to see the Center develop a top notch mentoring program. It would highlight the value of our Senior community, and help give sense of purpose to our Teens.

Safe gathering place for all

Yes! Building relationships and increasing engagement :)

Hub and Center

A space to call their own

6. What is your hope for the Tukwila Teen and Senior Center?

A place for trans youth to feel safe and be empowered.

A space that feels safe for women, BIPOC and the elder ✓

A place for teens to effect change that's lasting.

A place where TCF can meet and connect with the community

People who go there feel accepted and like they belong. ✓

It will feel like us and you will see our community in the space.

A place for teens to feel safe

A place where teens and seniors get to learn and have fun, and connect with their community!

Teens feel they want to go there first ✓

To be filled with love

That it is inviting and friendly to all ✓

It will bring more awareness to helping both generations connect

That its welcoming to all. Its light, bright and the space is respected by all.

Where teens feel like they belong

That it will be a safe space for ✓ ALL.

It will be like a being at HOME.

LOVE!!!

VIBRANCY for the community.

A place for teens to feel HEARD.

That it will always be busy with people, with community members, both from Tukwila and places around Tukwila

Everyone feels they belong

I can find a relationship... or friends lol

6. What is your hope for the Tukwila Teen and Senior Center?

International days - celebrating things from all over the world.

People will be willing to learn from each other.

That many people will come to enjoy everything that the space has to offer.

A place to meet the community leaders.

The place will bring teens and seniors together.

This place can celebrate events (cultural celebrations) that represent celebrations from all over the world.

6. What is your hope for the Tukwila Teen and Senior Center?

**to meet
kind
people**

Hope that from the
seniors and the
learned lessons the
teenagers feel more
safe with
knowledge

**-a warm inviting
place with lots of
indoor space to
interact/socialize
AND outdoor space
to play sports,
maybe a basketball
court**

6. What is your hope for the Tukwila Teen and Senior Center?

i hope i will see people of all ages enjoying and using the space sometimes i want to talk to the older people

my hope is that everyone will feel safe and not worry about being judged

i hope it turns into a youth center instead of a intergenerational because the city is already lacking at listening to the voices of youths in our community

Enjoyable

A great community

I feel like it should just feel welcoming and there'd be lots of things to do.

accepting and accessible to anyone

a fully inclusive space somewhere for the community to enjoy

environment where it feels inclusive and really welcoming

I hope that we can bring the two age groups together in a way where there isn't two ways of thinking. I hope we can see eye to eye with the seniors and vise versa

Outdoor spaces where people in the community can engage in recreational activities, whether it be indoor or outdoor, and people can learn new skills.

I hope that it is a place of awareness a place of enjoy and place to make friends.

6. What is your hope for the Tukwila Teen and Senior Center?

that it would be allowed to change and adapt to community needs and could be open to all community on special occasions

It will bring the community closer.

It would empower our community children one to 100 by encouraging their aspirations, tapping into their resources, and abilities.

easy to get to and could include a community garden

We will be able to connect with more people - and it will bring the community closer

It will be reflective of our diverse community, in colors, space, employees, activities and language.

Community health workers

It won't look like the buildings we have. I would love this building to be more reflective of the diverse community.

Not general, typical Northwest buildings.

The building will capture and connect to the Tukwila story

How we greet each other, and make our community feel as they enter.

AFFORDABLE for the community and the City

What about the person(s) that needs to someone to listen to them. Providing that space and that opportunity for support.

Providing support for parents and grandparents

Being greeted with warmth, making eye contact. Making sure that people are seen in this space.

6. What is your hope for the Tukwila Teen and Senior Center?

**I hope
it's fun**

To show more in the
dance community
by having bigger
practice spots or
hosting battles

It shouldn't be
alienating to any
specific
people/groups- at
the same time, it
shouldn't be boring.
I'm hoping it's a
place everyone can
be excited to be in!

**everyone
feels
welcomed
and safe**

To include everyone
no matter the race.
Even if they are not
good at a sport etc.

**inclusive and
creates a safe,
fun place**

**to bring
people
together**

To include everyone
no matter the race.
Even if they are not
good at a sport etc.

to have it be a
welcoming space
for everyone to feel
part of the
community

6. What is your hope for the Tukwila Teen and Senior Center?

**everyone is
equal, no
matter age, or
race**

Provides a
comfortable space
where everyone
feels welcome and
can be their true
selves and have fun
with each other.

**Respect
and
kindness**

A place where one can
look back at and
remember the amount
of power they've
built within this
center.

**A place for
opportunity
and place to
be able to talk
about your
problem**

**place to build
with elders in
our
community**

**everyone
feel safe
and
welcome**

**A place I can
make a lot of
friends and
want to return
back**

It can be a place to
grow. Either
emotionally,
mentally, by
learning new skills,
building
connections.

**equal
space for
everyone**

6. What is your hope for the Tukwila Teen and Senior Center?

The elementary school kids can't WAIT to be a teen so they can go there (that was me when I was a kid - we ALL could not wait to be able to go to the teen center)!

something that only gets better with time

We are a model for other communities - share the love! Replicate!

The Center loves Community; Community loves the Center

Credit is given to those staff that really made it happen - and community knows exactly who they are.

A place where everybody knows your name.

Where synergy happens

Easy to get to in a variety of ways

place where you feel comfortable to share ideas and be yourself

Constant programming that continues to innovate and provides a sense of belonging

An innovative concept that is supported and utilized by many in the community

Grow community

Is copied by others

A continued co-creation with programming

Our seniors feel the love and new relationships are formed - adopt a grandparent. <3

6. What is your hope for the Tukwila Teen and Senior Center?

6. What is your hope for the Tukwila Teen and Senior Center?

A center that allows each generation to learn and grow and create.

a space that provides hope, where teens can dream, where they have the resources and support to explore, create, innovate and feel home

A center that is a safe space for both teens and seniors where they can get the help that they need.

modern yet warm and welcoming not sterile

place to bring community together safely and staff reflects the community. A place where people feel comfortable gathering and actually look forward to attending and participating

My hope is for the center to be safe, welcoming and inclusive to everyone.

A place where families who is struggling with teens behavior can come and get some other support

a space where senior relax, feel at ease and home, where they can dance, cook, share foods, thoughts, relax

a place free of judgments and more of support

a center that also connects teens and seniors for mentorship

Where they can come and talk freely, meet with different people from different background.

a place where everyone is responsible for DOING THE RIGHT THING

a center that allows access to all digital resources for learning and creativity.

6. What is your hope for the Tukwila Teen and Senior Center?

6. What is your hope for the Tukwila Teen and Senior Center?

Friendly to communities who are not from the States. Equity is important and all the services of this center must be attainable and accessible for EVERYONE.

People feel at home when they walk in. A place that is judgement free and has ZERO tolerance for ignorance or hateful behaviors or comments.

Population trends will be growing. Success (not always) can be seen if more people are engaging with the center. The hope is that members are telling others of how great the center is and want others to be tapped in.

Lots of space for covid-19 regulations to be followed. Drop in programs for equity and equality for everyone. Safe spaces. Well regulated areas or watched. Clean spaces.

I hope this a place that fosters beautiful relationships between teens and seniors, and also cultivates a great hub for all types of fun events, programs, and projects

I hope for it to be a place that the community collectively comes to enjoy, respect, and utilize.

I hope that all members of the community will want to use the Teen and Senior Center and it will be a beacon for the diversity that we have in Tukwila.

The right place is somewhere that a teen in highschool or a senior in retirement, both with different experiences and backgrounds, can find the same enjoyment and comfort.

Fosters interaction between teens and elders; two groups that have unique perspectives but are rarely brought together or listened to in society.

I hope that the Tukwila Teen and Senior Center can be a safe space for students and elders to communicate, shelter for after school activities, and a area for elders and students to get their basic needs met.

6. What is your hope for the Tukwila Teen Senior Center?

I'd like it to boost positive influences in our community over the next coming years

Provide help, resources, and comfort for both age groups that's mindful of their experiences socially & structurally

Create a bridge between 2 communities within Tukwila where we can bond over shared experiences & spaces like the potential senior & teen center

feeling relaxed

A place that has food or snack

Free Or Low Cost Access

A place that supports the interests and passions of Tukwila's youth

there are many things to do

It needs to be close and accessible by the teens and seniors in Tukwila or it would be meaningless

A Space Open To All

A space that I can go after school

Open Spaces To Bring Everyone Together By Removing Physical Barriers (lots of rooms and halls)

A place that opens up opportunity for youth to have fun, be successful, and learn.

A place that employs youth

can come any time

6. What is your hope for the Tukwila Teen and Senior Center?

I hope TSSC is a fun but also safe and supporting place for all people.

Having equal spacing so that we don't disturb seniors and we have enough space for us to have fun with our activities

A place where teens and seniors feel physically and emotionally safe. Obviously there will have to be adults there for supervision, so having adults there who teens can trust, who have built relationships.

A place where dissemination doesn't exist

I hope that the community could make us grow closer to each other.

a fun community for all no matter what race, gender identity, skin color <3

a place where us teens and seniors will feel safe

having it be a place that people actually like going to after school.

Fun activities like video games or small spaces for teens to hangout and have fun

A safe space for teens to come together and have fun

i hope we would have some fun activities such as video games

A fun place for everyone to enjoy!

That teens respect this place & it bring the community together and everyone feels safe.

To be a place where I can do activities with friends and sometimes by myself.

For it to be a place where you could go, chill and relax!

6. What is your hope for the Tukwila Teen and Senior Center?

for teens and seniors to get along in here

a place of understanding

My hope is that teens and seniors can make new friends and to feel like this place will always welcome you

activities that we can collaborate with each other

You would probably know when people respect this center and more people are willing to be open in this center

i hope that it is a place with no violence

creative options for engaging with each other. Opportunities for teens and seniors to learn from each other.

I hope there will be nice staff at the teen and senior center.

More people are being involved in events etc

A hope I have is that there are various of opportunities

Supporting Questions: What will it look and feel like? How will we know that we are creating the right place?

everyone feel welcome and free to speak their opinion and truth

Be able to interact with both seniors and teens, just to be able to get along and let people vent to either seniors or friends.

people are talking happily with each other

My hope is for the teens to be a help to seniors and for the seniors to help the teens mature.

8b. Is there anything else that you would like to share with us?

what are the
thoughts
regarding
location of the
center thus far
if any?

7. If it does what you think it should do, what kind of impact could a Teen & Senior Center have on the greater Tukwila community?

give people
more learning
opportunities
and space to
be together

Give people a
free place to
meet and to
gather.

teaches
people life
experiences.

play hard

harder

7. If it does what you think it should do, what kind of impact could a Teen & Senior Center have on the greater Tukwila community?

It will change
and transform
lives

A more close
knit
community!

A welcoming
place for
everyone

I believe that it will
do a lot of good to
the mental health
and well being of
everyone especially
after everything
that we have gone
going through.

it would change the
stigmatization that
nothing can be
done to be better
which I don't believe
because there is
always something
that we can do to
make things better

Bring Tukwila
Community
together.
Build closer
bond.

Tukwila can
become a
good example
for other cities

1a. teen violence
and crime will
significantly reduce,
mental health cost
go down, will see
more productive,
responsible and
successful teens
and their families.

1b. Diverse cultures
flourish, enhances a
social, political and
economic
integration. Create a
strong sense of
community and
home

Teen and
Seniors can
have time
together.

7. If it does what you think it should do, what kind of impact could a Teen & Senior Center have on the greater Tukwila community?

**Bring
people
together**

It will make us realize that there is unity in the diversity that we have. There is unity that binds us together. A space can show us all that we are not that much different

**bring us
closer
together.**

Sometimes just getting to know your neighbors can break down barriers.

Helping Americans learn about our cultures. If we get together can learn to get along with each other and understand each other better.

Building relationships in this space will help us care about each other outside of the space. We will learn about the needs of the people in the community and we can help each other.

When people use the space - then they will become the ambassadors to outreach to other community members to make them aware of the services at the space.

7. If it does what you think it should do, what kind of impact could a Teen & Senior Center have on the greater Tukwila community?

It should help kids
steer away from bad
influences and start
focusing on their
future

positive interactions
(like making new
friends) within the
community making
connections
between seniors
and teens

inspiring
quotes to
tell others

word would spread
about all of the fun
activities there and
more and more
teens start joining
activities

7. If it does what you think it should do, what kind of impact could a Teen & Senior Center have on the greater Tukwila community?

having better
connections
with others

It would bring
the
community
closer and
build a strong
bond.

7. If it does what you think it should do, what kind of impact could a Teen & Senior Center have on the greater Tukwila community?

people would want to come regularly

Be a place that is accessible and that people actively want to go-somewhere people plan to meet to hang out, etc

it can make people happier in general

give a safe space for people who do not always have that resource.

It could keep teens away from drugs etc.

a tighter community relationship

keep teens from becoming homeless

People will not only have space for fun but also more opportunities to learn various different things to explore hobbies and passions

7. If it does what you think it should do, what kind of impact could a Teen & Senior Center have on the greater Tukwila community?

7. If it does what you think it should do, what kind of impact could a Teen & Senior Center have on the greater Tukwila community?

I think it would have a great impact by making people feel even more accepting and make friendships with not only other teens but with the seniors as well.

Brings people together

people would be friends with more ppl

More teens and seniors spending more time with each other and bonding- might even make new friends

More people could go to the Teen & Senior Center

We can have a stronger relationship between seniors and teens.

It would give shelter for students that don't feel safe at home which could help their mental health.

A teen & senior center will bring people together. Coming together in community will only uplift everyone and make the community safer.

Stronger bond

More people helping with each other

Be a safe space for people who may live in a harmful environment

7. If it does what you think it should do, what kind of impact could a Teen & Senior Center have on the greater Tukwila community?

It could make an impact on teens to gain volunteer skills and characteristics individually

bring the wisdom of older people into the community! build pride in the cultures in our community.

I feel that the community will be closer and bond in ways that we never seen in the tukwila community yet.

It could impact on teens getting out more and being productive

I think it would bring the whole community closer.

people being encourage to involve themselves with others

People would feel more comfortable in Tukwila.

bridges the gap between older folks and younger kids in the community. People will say hi to each other in the streets and at the library! We will get to know our neighbors.

more teens will be able to interact with each other than before and get to know more people

The impact that it could have on the community is improving on society within around us

just bring the community together

People could come together

I think the impact will be a stronger community because teens and seniors will get know each other and help a lot of different people reach out to feel safe.

7. If it does what you think it should do, what kind of impact could a Teen & Senior Center have on the greater Tukwila community?

**Reduces

help people realize
that.

7. If it does what you think it should do, what kind of impact could a Teen & Senior Center have on the greater Tukwila community?

**Bring us

want to come back
and give back.

Seniors feel
like they have
"family" and
are not
isolated and
have support.

7. If it does what you think it should do, what kind of impact could a Teen & Senior Center have on the greater Tukwila community?

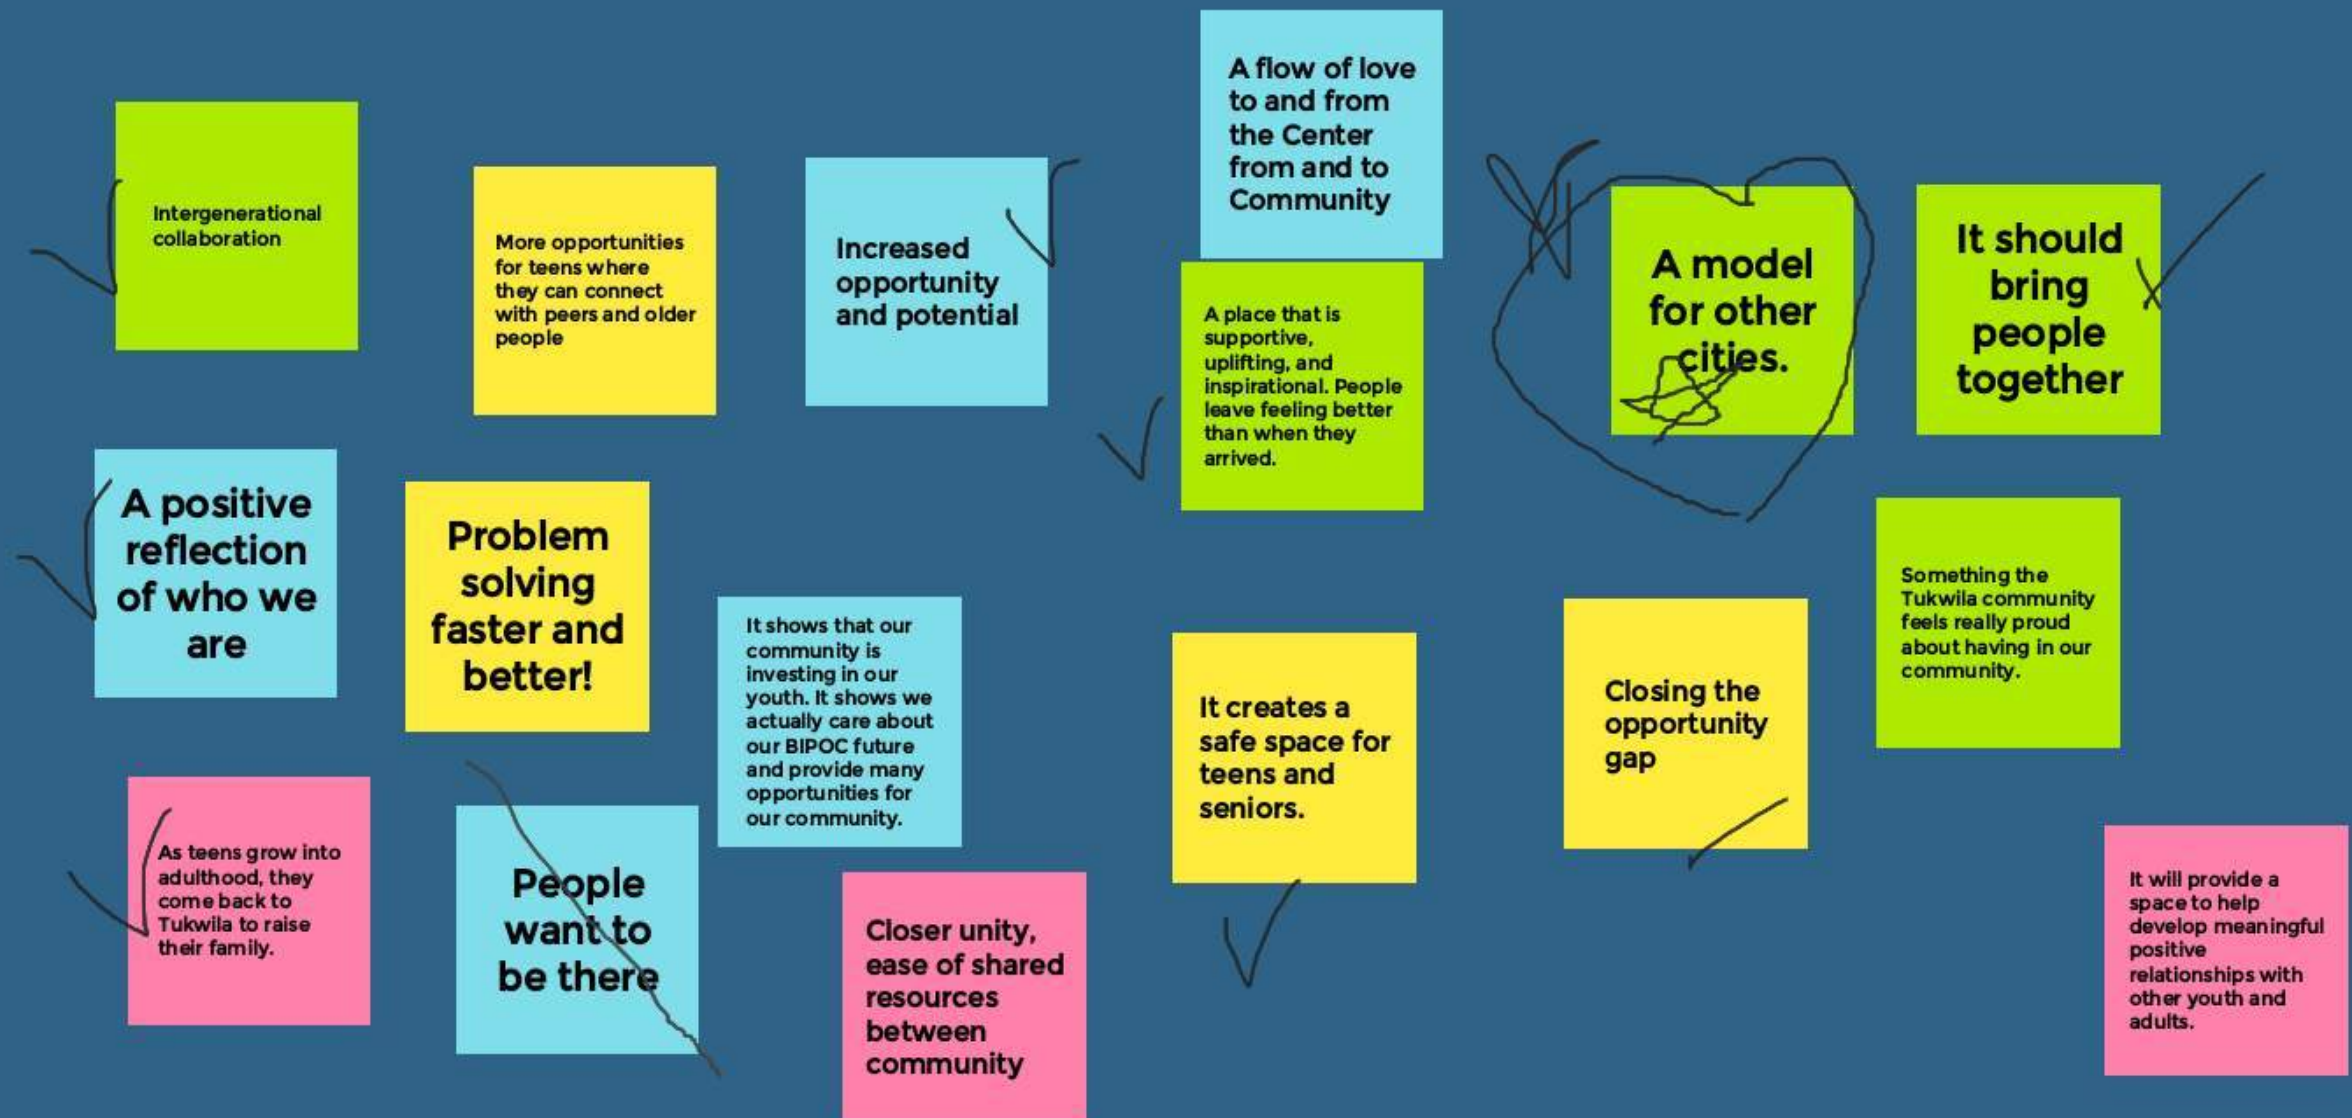

I could see the Center helping to bridge generational gaps and understanding. Bridging that gap would lead to more consideration in our community.

A successful center will increase personal connections across the community and between generations. Our community can only improve as we all come to know and understand each other better.

**Boundless potential!
Serve as a place and center for inspiration, learning, guidance and growth.**

A space that would have easier access for Teens and Seniors who do not have transportation. A gathering place to build community - Seniors in the am and Teens in the evening.

7. If it does what you think it should do, what kind of impact could a Teen & Senior Center have on the greater Tukwila community?

Better sense
of community
and bring
people closer
together

It will raise the
awareness of the
people who make up
the community, as the
center can be a place
of recreation and one
that promotes youth
voices in the issues
within our
community.

A sense or awareness

7. If it does what you think it should do, what kind of impact could a Teen & Senior Center have on the greater Tukwila community?

could increase
community
ownership
and pride

(to the left)
Everyone
agrees with
this

could add
resources that
we haven't
thought of yet

On-time Graduation,
Civic engagement,
Youth investing in
community through
volunteerism. Low
crime, and pride in
community.

Just knowing that
people are seeing
things and
discussing things
that can bring these
two groups
together. It makes
people feel
good/valued.

7. If it does what you think it should do, what kind of impact could a Teen & Senior Center have on the greater Tukwila community?

It will definitely allow our teens not to be around bad influence and could change their trajectory in life for the better

Should allow community engagement so that from elders to youth, no one feels alone or isolated. There should be at least one person with an open ear to listen to their stories/journeys.

Contributes to city morale. Greater sense of pride in the City of Tukwila among residents.

Be a safe haven for at risk youth.

Creating new leaders for the community. Be a safe haven for youth. Creating aid for centers and making the community better directly and indirectly.

Combats or decreases depression rates in senior citizens as it provides them a space to engage with other citizens.

Mental health crises goes down in both groups.

Be a hub for outreach and betterment in the Tukwila community.

Be a safe haven for at risk youth.

Be seen as "the shining jewel" of the city.

If it has a study space, I do expect students grades and or test scores to rise.

Be a supportive place for teens and elders to both impart and receive knowledge and guidance that they would not regularly have access to outside of the center model.

Leads to greater community involvement from people of all ages

7. If it does what you think it should do, what kind of impact can a Teen and Senior Center have on the greater Tukwila community?

personal development by the senior/teen center would lead to community development

Set to handle potential issues and situations because as a teen id feel equipped with networking & resources i've been able to find within that space

It could create jobs for youth among others

It could be a place that allows historically underprivileged youth a place to build skills in athletics, knowledge, work and learning

resource

people can go to for help or info

Training/tutoring in academic/life skills

jobs for can be done by anyone. educated or not

It could bring more people together

IF and Only if It reflects the needs and wants of out community members then I believe that it will be a great unifier

It could foster the interests of youth

IF and Only if It reflects the needs and wants of out community members then I believe students will be happier safer and better fed after school.

IF and Only if It reflects the needs and wants of our community members then I believe our students will be better equipped to succeed.

7. If it does what you think it should do, what kind of impact could a Teen & Senior Center have on the greater Tukwila community?

**Support
group**

**Help
at-risk
youth
succeed.**

**Safe
Place**

Greater strength in
community by
having a better
understanding of
each other through
our teens and
seniors.

1a. It would provide
teens and seniors
both a creative and
active space where
they are safe.

1b. Tukwila would
benefit by hopefully
an increase in
community
engagement through
participation in
teen/senior activities
at/near the center.

**Build
future
leaders**

**Gathering
place**

**Create a
feeling of
inclusiveness
to all.**

7. If it does what you think it should do, what kind of impact could a Teen & Senior Center have on the greater Tukwila community?

**Educate
and Bring
people
together**

It could put
the youth on a
better path
and make our
streets safer.

The teen and senior
center could have a
big positive impact
on the Tukwila
community.

**Bringing
people
together**

Even though we are
moving forward just
don't forget, we are
a little town/city. We
want to be heard
but not ENLARGED
to look like
Seattle/Bellevue.

Student/Elder
outreach would be
justified and knowing
they can go

7. If it does what you think it should do, what kind of impact could a Teen & Senior Center have on the greater Tukwila community?

I would say that people will feel more happy to get something done or to just have fun in general.

This could impact the mental health of the teens and seniors that go there.

People may feel valued.

1a. It would provide underrepresented students with community assistance. And they will be eternally grateful for the opportunity when they grow up.

1b. And hopefully, one day, we will be able to give back and show how we can make Tukwila a better place.

7. If it does what you think it should do, what kind of impact could a Teen & Senior Center have on the greater Tukwila community?

I grew up w/o a space like this. Having a space to support teens and help them connect with resources would be HUGE for teens. I didn't have that growing up.

Not being able to know about opportunities that exist. This could be a space to connect people to what they don't know is available.

The homeless situation is a challenging situation that the City needs to give it's attention to. It's all of our problem and it's not their problem.

8. Is there anything else that you would like to share with us?

In terms of the ACTUAL building, I'm hoping it has both indoor and outdoor spaces, like tables on the outside to socialize.

Agreed^

I hope the building has a lot of space, physically. I would not want to go if it's always crowded.

If there could be more awareness for the girls who have been missing/ know that we be protect from that. Now I can't go outside to just take a walk because of that.

Keep the main thing, the main thing. Try not to focus on one demographic than the other. Be very inclusive and bring all of us together

will there be supervision for teens and the seniors? What if it creates a dangerous space?

I really hope building more building wouldn't raised the apt rent. It seem the more building in Tukwila, the higher the apt rent are.

It's important to have this space to bring seniors together. Especially from the African community.

It's a good project for the young people to learn and to play. For the seniors to get away from home and get some fresh air and connect with other community members.

8. What would you tell the community's elected officials about the importance of this project if you had the chance? And why?

It would give community members a place to go besides the library especially the ones that aren't at the library for typical library reasons

That if it is doing what we asked, it would provide food to kids

Besides the mall, Tukwila is really plain for how rich it's community is. We need to take advantage of how fruitful our community is and build a space for it

There are plentiful of benefits that come from connecting young people & seniors: teens teach seniors about new technologies and seniors teach youth about life

Community Member - Community Champion

1. What do you love about Tukwila? What makes Tukwila “home”?

- I love Tukwila’s diversity, as a child of immigrant parents I appreciate that so many of my neighbors share that experience and have their own unique cultural and personal experiences. I love how much greenery there is in Tukwila and walking/biking along the Duwamish and living amidst so much everyday natural beauty.

2. What do seniors/teens bring to the community? Why do you think valuing seniors/teens in our community is important?

- Teens are the literal future of our community and should be the focus of social and cultural investment by adults who want to ensure that Tukwila continues to improve itself and the quality of life for everyone within the community. Young people have a unique perspective on the world they’re inheriting and the problems and opportunities within it, we should empower them to be successful.
- Seniors provide a wealth of lived experience and history to the communities they live in. Some are responsible for building many of the resources in their neighborhoods and others bring experiences from outside the region that provide a different reflection of the context we live in.
- Healthy communities invest in their youth and take care of the elderly and in need. We have the means to provide a better quality of life for all within our community, and I believe that investing in social and cultural capital of our community pays huge dividends.

3. Are there any things that can be done to serve you and this community better? If so, what are those things?

- While there are a lot of great recreational trails for exercise and leisure— many areas of our city lack continuity for accessible pedestrian and/or bicycle paths, that might better enable young people to efficiently commute or for our elders to have better access to all our regions’ amenities and resources.

4. What would make you want to use a Teen & Senior Center? And how would you use a Teen & Senior Center?

- I’d love it if our local Teen/Senior center featured programming like concerts, art exhibitions, performances, etc. of local talent from both the young and old. Something that combined the neighborhood resource feel of Redmond’s Old Firehouse Teen Center w/ a broader array of resources to reflect the intergenerational services and programs and unique cultures of Tukwila.

5. What kinds of spaces bring you happiness and why?

- There's a fantastic museum in St. Louis, MO called the City Museum that collects a variety of civic history, art, and attractions into a unique combination of natural history museum, an immensely explorable and climbable jungle gym that winds throughout the building, aquarium features, science attractions, a ferris wheel and roller coaster on the roof, and much more! It's a building that seems like it was designed by over stimulated children in a *fantastic* way and its anarchic and sometimes weird handmade edges seems hard to imagine locally where municipal architecture tastes run more silicon valley sleek and clinical.
- Local spaces I love include the Old Firehouse, the Vera Project, NW Film Forum, or even businesses like Southgate Roller Rink or Roxbury Lanes which engage multiple different and diverse demographics in recreational activities and services.

6. What is your hope for the TTSC?

- I would love to see a space that is built sustainably and with an aesthetic that feels lived in— not too new, sleek, and chic. Something that aesthetically reflects the history and calm of the greenery that surrounds our community. I would also love to see a space that feels like a gathering space for the community— a shared living room to engage socially and culturally.
- You'll know the project is successful if it's generating enough engagement from local community leaders throughout the process. And by community leaders, I'm not referring to our city employees or elected officials so much as the influencers in our neighborhoods and those who might already be leading a group providing some service or mutual aid in our community. The leaders needed are the ones who are already doing the work in our community— this is an opportunity to engage their expertise and provide a platform so that their expertise and energy can be amplified.
- It would be great to have a space whose programming is regularly and actively attended, but in order for that to happen a significant amount of development must be done to create an ongoing dialogue with the audience/community and that is best done by individuals who already carry influence and favor within the community because of their demonstrated work and passion.

7. If it does what you think it should do, what kind of impact could the Teen and Senior Center have on the greater Tukwila community?

- My hope is that a future Tukwila Teen and Senior Center is an incubator for local talent and future leaders the same way that we've seen so many local bands become international influences or the way that local volunteerism can turn into a lifelong passion for political and civic engagement and improving our communities and the quality of life for everyone within them.

8. Is there anything else that you would like to share?

- I think it's important that community spaces avoid overt corporate branding and/or naming. For example, while I acknowledge their value as a local employer-- I'd be extremely distressed if a building like the proposed Teen/Senior Center was named after Boeing when the Duwamish river that runs throughout our city is still hazardously polluted as a result of their wartime production and pollution.

1. What do you love about Tukwila? What makes Tukwila “home”?
 - a. How do we offer that experience to more people?

TUCKWILA IS HOME BECAUSE OF NEIGHBORHOODS, SMALL TOWN FEEL AND CITY STAFF THAT WORKS HARD TO MAKE IT A GOOD PLACE TO LIVE.

1. Do you think intergenerational relationships are important? If so,
 - a. What do seniors bring to the community? Why do you think valuing seniors in our community is important

SENIORS BRING HISTORY, AND EXPERIENCE. MOST HAVE MELLOWED WITH AGE

- a. What do teens bring to the community? Why do you think investing in teens in our community is important?

TEENS ARE OUR FUTURE, THEY HAVE A DIFFERENT AND NEW WAY OF THINKING ABOUT ISSUES. IF WE DON'T INVEST IN OUR FUTURE, THIS WON'T BE A GOOD PLACE FOR FUTURE GENERATIONS

1. Are there any things that can be done to serve you and this community better? If so, what are those things?
2. What would make you want to use a Teen & Senior Center? And how would you use a Teen & Senior Center?

I DON'T KNOW THAT I WOULD USE THE TEEN & SENIOR CENTER. FIRST THOUGHT SHOULD BE FOR TEENS NEEDS. LOCATED NEAR HIGH SCHOOL AND JR HIGH. SAFE WALKING DISTANCE AND PARKING THAT WON'T BE ABUSED BY HOUSING RESIDENTS. PERHAPS TEEN AND FAMILY CENTER SHOULD BE CONSIDERED.

Project Specific Questions:

1. What kinds of spaces bring you happiness and why? GREEN SPACES
 - a. What can people do there? REST, RELAX, EXERCISE. PICNIC
 - b. What kinds of settings support those activities? PARKS, TCC
2. What is your hope for the Tukwila Teen Senior Center?
 - a. What will this place look and feel like?
 - b. How will we know we are creating the right place? TALK TO TEENS, PARENTS, AND SENIORS.

3. How could the Teen & Senior Center affect the greater Tukwila community?
4. What would you tell the community's elected officials about the importance of this project if you had the chance? And why? LISTEN TO THE TEENS, THEY ARE OUR FUTURE. MANY OF OUR RESIDENTS LIVE IN MUTIGENERATIONAL HOMES. GRAND PARENTS, PARENTS, TEENS AND SMALLER CHILDREN. SEEK OUT AND LISTEN TO THIS DEMOGRAPHIC.

Community Feedback
April 18, 2021

Senior Citizen Email feedback (resident):

Hi,

I apologize. When I got your first message, we were out of town with friends and couldn't get a response back to you by the deadline you specified. When I got the second request, I was knee deep in grandchildren until today. So here are my thoughts.

I think it's a great idea. Offering a facility and programming for both populations near where many in these age groups live helps solve the access/transportation problem that many experience with the existing community center. Even for seniors who can get to TCC, the availability of the facility to support Senior programming in the summer plummets because of the needs of our families/youth. Not sure about teens.

Such a facility needs to be dedicated to the needs of both groups and stay that way. My concern is that in ten years it might be just a teen center with little room for seniors to gather, have programs or take classes. It seems as if seniors got squeezed out some at TCC when other operations/programs needed more space.

I think our teens need a space for recreation and clubs and to socialize. I think our seniors need a space for recreation, activities and to socialize. Both groups need connections to the community to thrive. It seems to me there could be the possibilities of clubs and activities that could be multigenerational which would benefit both groups. Many teens don't have elder members of their families close by. Seniors could be mentors, friends or maybe volunteer to teach cooking or other skills. Many seniors are not near their families or don't have family. Teens could provide help with technology, volunteer to help some other way or provide friendship. Basically, both groups would benefit from connecting to others. This last year, I have felt very disconnected and isolated from the world in general. It has made me understand how important connection and relationships are.

I would definitely use such a facility. It seems to me that more space would allow for the possibility of more activities and the opportunity to meet new people.

I envision a building with a large common space, smaller flexible rooms and possibly a kitchen to be used by both groups. But both groups need some dedicated rooms with space to store supplies and equipment.

I hope this helps. I would be happy to talk about this further.

Introductory Questions:

*What do you love about Tukwila? What makes Tukwila “home”?

I love the diversity of the population/demographics. I love the green trees. And it's a great location. What makes Tukwila home is the opportunities for creating a sense of community. I am involved with the schools and library as a volunteer. I like working with young immigrants and refugees.

*How do we offer that experience to more people?

Being welcoming when new people join us and inviting people to various events. Not being inclusive.

*Do you think intergenerational relationships are important? **Absolutely!**

- What do seniors bring to the community? **Wisdom and patience.**
- What do teens bring to the community? Why do you think investing in teens in our community is important? **Teens are sharp and bright and open. They truly are our future.**

*Are there any things that can be done to serve you and this community better? If so, what are those things?

I feel Tukwila Parks and Recreation has done a good job of serving on many levels.

*What would make you want to use a Teen & Senior Center? And how would you use a Teen & Senior Center?

The multi-generational element is critical in building community. It's important that both older and younger people learn to respect one another and live together. I am uncomfortable with separation from main stream life.

Project Specific Questions:

*What kinds of spaces bring you happiness and why?

Spaces with diverse populations and opportunities to talk and get to know people. Enjoy the many different paths that bring us together. And, perhaps learn new things.

- What can people do there? **People can create (art,music, poetry, writing). Read and share books and exercise, meditate.**
- What kinds of settings support those activities? **Nature (parks) or community type spaces.**

*What is your hope for the Tukwila Teen Senior Center?

It will be a home away from home. Flexible activities and hours yet structure to be productive.

- What will this place look and feel like? **Welcoming, activities both age groups can do together or teach each other.**
- How will we know we are creating the right place? **By the atmosphere (positive) and feedback.**

*How could the Teen & Senior Center affect the greater Tukwila community?

The impact could be powerful. Might be opportunities for families to become involved as well.

*What would you tell the community's elected officials about the importance of this project if you had the chance? And why?

I would encourage officials to pay attention to the needs for the multigenerational base in our community. Research has been proven that when a teen has a mentor they function better in school and seniors need to not be pushed aside but treated as important citizens with gifts to share. I would share this because we need one another. We are the world.

Senior Citizen Feedback

Will try to give you some answers to survey questions.

Not sure what best way is, but would like to various people of Tukwila to know that it was not that long ago that Tukwila really was a small town. With the various ethnic groups we have now, just need to keep offering programs where all sorts of people come and eventually we will interact more and understand more about each other. Ex- the Cambodian family that comes on the Monday walks with us Senior ladies. Not sure why a bigger variety of people did not always come to current center. I like the location. I like to see various groups having meetings there and the little kids marching to where they need to go next. That being said, I know public transportation made it hard for some to get to Tuk CC. What about utilizing the former fire station across from the high school after new fire stations are built. Would there be space where the current Tukwila shop is- between the golf course and the Riverside. It is on Interurban where buses go. What will happen to the main fire station on Andover? That space is close to Marvelle and Airmark apartments. We already have a lot along Pac Highway. Not sure we need more facilities there -- especially if there is no parking like at the library. The library and the small farmers market is basically for SHAG because nobody else can find parking there. Really can't say what should happen at a joint teen/senior center. Maybe the kids could help us with our technology and we could help the kids learn pinochle, cribbage and geography. Is just good the 2 groups see each other. Is nice to have air space where we could ready the newspaper-- just hang out a little. Really like the round tables and lots of light in current TCC dining hall. Love the community Thanksgiving Dinner. If field trips can happen again, that would be super. I used to like the variety of things that were offered. Was interesting to learn about the grants you have received/ applied for. Appreciate the time and effort it takes to keep programs up and running.

8 Questions Themes

Sorted themes found the 8 Questions engagement. This assortment became the starting point of Champion Workshop 3 where Champions chose one to two options from each theme to understand what is at the heart of the Teen & Senior Intergenerational Center.

This image is a compilation of the all Champion chosen sticky notes from each section of the 8 Question themes. Champions described elements within these themes that they felt should be included in the project. Those notes can be found on the following pages.

Group 1 Hearty Activity

Notes

I. DIVERSITY (YELLOW)

- A. Add: Belonging – Sharing is the power of diversity – adds to feeling of belonging.
- B. Reflective of diverse community – total diverse representation is important (age / race / LGBTIQ / religious / disabilities etc.)
- C. Multi-cultural interaction – This idea is inclusive of many thoughts and activities
- D. Language Access – non-English speakers need to feel like they can participate / they belong
- E. Reflective of diverse community – representative of all types of diversity
- F. No-one should feel excluded (welcoming to all) – “No one should walk in the door and feel like this is not a place for me”.

II. LEARNING (ORANGE)

TUKWILA TEEN & SENIOR CENTER

APPENDIX B- CHAMPION WORKSHOP 1

Group 1 Hearty Activity

Notes

I. DIVERSITY (YELLOW)

- A. Capture and connect to Tukwila stories – everyone has a story. The more we tell and hear each other's, the more we understand each other
- B. Will feel like us, you will see our community in the space – really important that everyone in the diverse

community feels like this space is theirs.

- C. Community building events – building community takes work but community is fundamental to supporting youth / seniors, bringing us all together.
- D. No one should feel excluded. We need to remember everyone has value. Seniors have experience to offer though they may not do things as quickly as they used to. Youth have value / bring knowledge though they don't

have the experience and don't always feel heard

II. LEARNING (ORANGE)

- A. Fun but educational (2) – All types of literacy are important (emphasis on financial) but learning needs to be fun and engaging
- B. Networking HUB – jobs, tutoring, volunteer experiences, etc...
- C. Tutoring K-College – Cross generational opportunities for support with education.
- D. Intergenerational partnerships – Have so much to offer/ there's a natural connection between seniors / youth... "It's that grandparent situation that goes along with being a teenager. Maybe that grandparent was the only person who ever looked at them in a positive light."

III. ACTIVITIES (LIGHT GREEN)

- A. Mentorship – everyone figures out their story at different times. We have to mentor up and down. We can learn from each other no matter what age we are. Shout out to Networking
- B. Opportunities for Senior and teens to learn from each other – Seems like the whole point of this place
- C. Access to digital recourses – Kids are learning the tools but don't have access. Adults need access and education for jobs, etc.
- D. Art and cultural- are important to our humanity
- E. Karaoke – Talent show – a space for kids / adults to showcase their talents in a relaxed in environment.
- F. Add: Space away from violence

IV. ATMOSPHERE (RED)

- A. Safe space – hard to deal with any type of trauma and try to learn. We all need that safe space (2) We all need that space to feel at home. It's import we know we're safe so we can learn from each other.
- B. Atmosphere of Inclusion
- C. Welcoming. In order for you to feel welcome in a place means, there's a lot of work that goes into that. Means you feel safe / belong- It's about breaking down Isolation

V. WELLNESS (GREEN)

- A. Add: Isolation –Don't' rush to judgement people feel like seniors need to isolate. Seniors aren't like that. They enjoy their space and quiet but that doesn't mean they're antisocial. They're reflecting on life and enjoying their space – it's important to understand the value in that

- B. Family support center (2) – hugely important.
- C. Support group (2) – make space for multiple groups in the community – Space where people

- F. Dance room – multi-purpose

TUKWILA TEEN & SENIOR CENTER

APPENDIX B- CHAMPION WORKSHOP 1

Group 3 Hearty Activity

Notes

I. DIVERSITY (YELLOW)

- A. Trans youth – really important, we’re not ready to support our kids the way they need to be supported. And all LGBTQIA who need a safe space.
- B. BIPOC with emphasis on dreamers or undocumented youth who need support.
- C. Different people with different background can connect and understand each other – 2 votes. Needs to be a place where differences can learn from each other.
- D. No one should feel excluded bc it touches everyone including BIPOC and trans youth.

E. Welcoming to all – CREATE A SENSE OF BELONGING.

F. Cross cultural experiences

II. LEARNING (ORANGE)

- A. Tutoring for all!
- B. Financial awareness – youth needs to learn how to understand finances. Helps filling out a job application and understand what they need for IDs and etc. Incredible need in our community for all ages.
- C. Multilingual people working here and culturally relevant publications are important, or we will lose/miss people. (All the votes- 4)

- D. Immigrant businesses will help people build wealth over generations
- E. Student services to encompass so many of these. They are all important – classes, homework help, finances, etc.

III. ACTIVITIES (LIGHT GREEN)

- A. Clubs and workshops – captures a lot of the things we need
- B. Help and teach each other – place to feel welcome each other.

- D. Mentorship between youth and seniors
- E. Online classes for all the financial and career, etc.
- F. Intergenerational vibe – however it needs to happen
- G. Intergenerational field trips – get out of Tukwila together
- H. Creative center – to capture a lot of different activities & doing it intergenerationally.
- I. Dance – grandma did Filipino dance together with friends from senior center and it was a great outlet. Would be celebration of cultures for teens and seniors.

IV. ATMOSPHERE (RED)

- A. Welcoming. Hands down gotta be. 2 votes Bring good vibes, positivity, respect
- B. Respectful.
- C. The vibe/atmosphere will be the most difficult. Going to need a loud space, a quiet space, everything.
- D. Light
- E. Positive space – 2 votes
- F. Safe space / safe refuge.

V. WELLNESS (GREEN)

- A. Mental health services – on site counselor for direct help.

- A. Large open space – a place that people can get into because other fields are off limits. Multipurpose outdoor space. 3 votes – do everything we can outdoors.
- B. Outdoor space with tables and umbrellas and a walking path around it.
- C. Outdoor relaxation space.
- D. Tukwila is sandwiched between concrete jungle and an airport. MUST HAVE OPEN SPACE outdoors. Access to nature is limited in Tukwila and anytime we can get some it's important.

VIII. EXERCISE SPACE (BLUE)

- A. Line Dancing – sooner or later teens are going to go to a wedding or party and will need to know how to line dance.
- B. Multipurpose exercise space – hoops, weights, dancing, mirror, room off to the side, fitness classes. Let the youth and seniors dictate what the space gets used for. 3 votes
- C. Yoga – very calming.

IX. GENERAL SPACES (PINK)

- A. Childcare – “as a Latina Champion, we don’t do baby-sitters.” If you don’t provide child care, families won’t come. Easy way to support women in the community is to give child care. 2 votes
 - 1. Important... Is this for teen and senior center or is more community center oriented? Want to ensure that Teens and Seniors don’t get kicked out of this space. Teens/seniors get priority and first choice.
- B. Connect people to community resources. Can be all encompassing. 2 votes.
- C. Open to community for special occasions
- D. Transportation is a barrier. Need to remove barriers for community and that is a big one.

Appendix C - Champion Workshop 2

Prioritization & Site Tours

Champions reviewed input from Workshop 1, prioritized the compiled spaces, and identified their top 10. Champions then toured four potential project site locations and engaged in pro/con analysis, site context review, and discussion.

This session was held in-person at the Tukwila Justice Center with transportation to each site with an additional session online using Zoom, Miro and Google Maps.

The following pages show the prioritized spaces board, the site voting boards, site pros and cons boards, and notes from Workshop 2.

Champion Space Prioritization Compiled

Image shows the spaces that Champions felt were part of the "heart" of the project. Each Champion was given 10 dots to vote on the spaces that they felt were of highest priority within this selection. This prioritization lead to the activity in Champion Workshop 3.

FINAL SITE TALLY*

SITE	1ST CHOICE	2ND CHOICE	3RD CHOICE	POINTS
NEWPORTER	1	2	18	25
BARTELL DRUGS	4	15	2	44
STAR NURSERY	16	4	1	57

*Based on a numbering system where 1st choice vote is 3 points; 2nd choice is 2 points; and 3rd choice is 1 point.

IMPORTANT CITY DRIVERS FOR CHOOSING A SITE

- City council has noted that the TTSC must be in TIB neighborhood.
- Must not displace anyone – residents or businesses. City owned or willing seller.
- Showing 3 sites that the city owns or can buy.
- Possible 4th site not shown partner with Healthpointe.
- City council will make the ultimate decision, managing expectations.

Healthpointe Site (Discussed but not visited.)

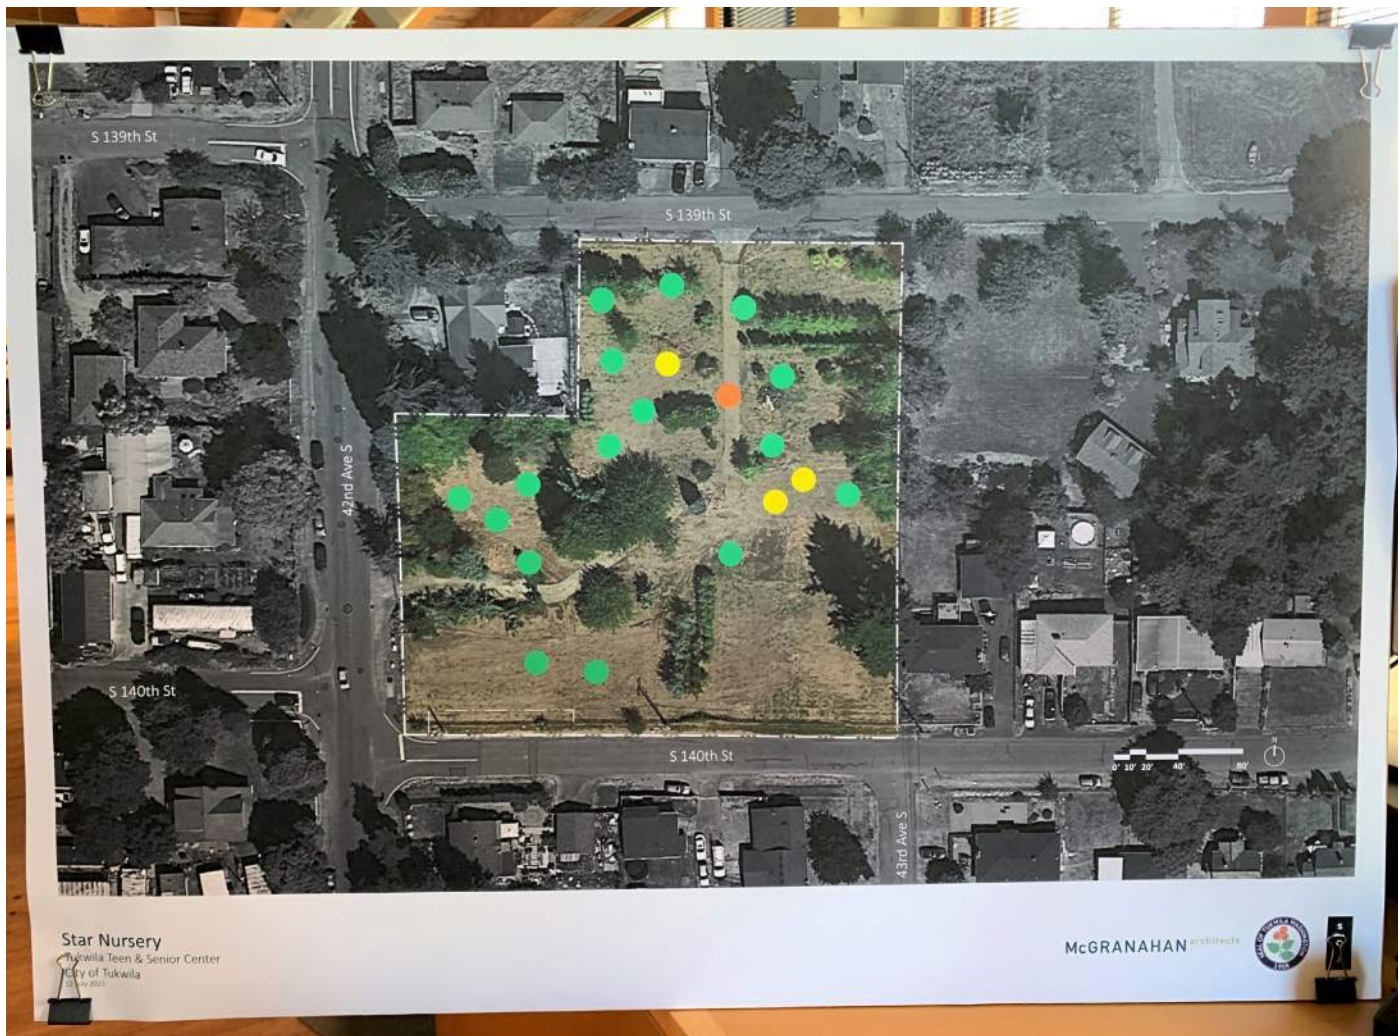

- The block where the confiscated hotels used to be – the City is working with Healthpointe for a clinic, affordable housing, and their headquarters.
- Could be space to partner with Healthpointe to have space for some Teen/Senior activities.
- Would be on someone else's unknown time-line.
- Might not be a true teen and senior center, not a City project, and limited outdoor space.
- Pro – it would be less expensive for the community and would have direct access to healthcare.

TUKWILA TEEN & SENIOR CENTER

APPENDIX C- CHAMPION WORKSHOP 2

Star Nursery Site

- City bought this originally for Fire Station 54 which ended up not being built due to construction escalation.
- City is looking into the long-term plan for fire (could be regional- partner with nearby cities, so fire wouldn't need this site.)
- Nothing is set in stone, and not quite aware yet of all the possible politics with the fire dept.
- 1.4 Acres
- This site received 16 green stickers from Champions making it their first choice. Three champions gave it a yellow second-place sticker, and one Champion gave it an orange, third-place preference.
- Next page shows Champion thoughts for the pros & cons for the Star Nursery Site.

APPENDIX C- CHAMPION WORKSHOP 2

Bartell Drugs Site

- Whole site is for sale but will be very expensive to buy whole thing.
- Owner is willing to sell the portion shown to the City.
- Across from Cascade View Park.
- 0.8 Acre
- This site received 15 orange stickers from Champions making it their second choice. Three champions gave it a green first-place sticker, and two Champions gave it an orange, third-place preference.
- Next page shows Champion thoughts for the pros & cons for the Bartell Drugs site.

Newporter Site

- City-owned site.
- Used to be the site of the Newporter Hotel.
- There may be African owned businesses interested in this property who just started a conversation with the City.
- Three parcels on this block – Mike's Auto Shop (retired, willing to sell the corner) and the strip behind. The City could possibly buy all 3.
- 0.7 acre site shown
- This site received 17 orange stickers from Champions making it their third choice. Two champions gave it a yellow second-place sticker, and one Champion gave it a green third-place preference.

CHAMPION WORKSHOP 2 NOTES

Champion WORKSHOP 2.1

JULY 13, 2021

Heart Space Prioritization

- Garden/farming, outdoor terrace add to the feeling of being outside.
- Should be different from generic NW building really resonated with me.
- Mixing indoor/outdoor and plants will help put people in a good mood.
- Everyone is so consumed with their phones/technology, so an outdoor space is a MUST.
- I put 2 votes on Open Space with Kitchen because food is how we gather no matter where we come from.
- Want to be able to use space in multiple ways... “expansive space”.
- Regretted that we only get 5 dots because there are so many good ideas, but I understand that we can’t do it all.
- What do we want to be – what is the goal at the end of the day? A beacon of light or a space of tranquility?
- Kitchen – could have micro-businesses and training for young people.
- Basketball, must have.
- Liked seeing all the other group ideas – lots of overlap in the thinking.
- This is a huge infrastructure project, could think of it like “building cultural bridges.”
- Kitchen – need a kitchen set up for cooking classes, demonstrations, engagement instead of one set up for production/business.
- Balance open-transparent-visible-space with privacy and service spaces.
- Mental health services and resources – so important. Liked the Resource Center as well, but that should mean mental health services among others.
- Could be private space, clinic, a hallway for happiness, a dedicated navigator to help people find services or a dedicated counselor from Healthpointe.

Sites Discussion

Champion 1

- Star Nursery and Bartell preferred.
- Families and people nearby could be positively and negatively impacted.
- Con: will property taxes go up?
- Pro: Property values could go up.
- How will they be impacted?
- Thinking of families nearby, impacts on property value/rents in the long run.
- We could make a multilevel building on any site.

Champion 2

- No perfect site, will have to come to terms with that.
- Bartels is the best opportunity to bridge all aspects of the community. (Switches vote to Newporter after hearing everyone.)
- Bartell: Could have more people contribute to gardening in the park. It would help build up the park.
- Newporter: Proximity to Justice Center would allow new relationships to be formed between police and young people.
- Opportunity to bridge community groups.
- Strengthen and build the Tukwila Community.
- Bartell – park nearby could garden, help shape the park to have more resources like basket ball
- Unique, build up.
- Newporter doesn't disturb people because no residences close by and provides much needed resources.
- At Star Nursery you would uproot the peace of the neighborhood.
- Newporter/Bartell – historically unsafe but this building has the potential to change those neighborhoods for good.

Champion 3:

- Star Nursery is his preferred.
- Likes all the natural features on site.
- Would need larger neighborhood accessibility plan – accessible sidewalks, streetlights, improvements, maybe mass transit?
- Active center makes a safe place in a neighborhood and could make the neighborhood safer.
- Activate this space.
- Like Bartell site because it's already active.

Champion 4:

- Prefers not to give his preference. Liked hearing everyone's thoughts.
- Pros and cons to each site depending on what you want to do there.
- For example, Star Nursery could have an outdoor amphitheater where the others couldn't, but in a residential neighborhood you would also want to be respectful.
- Star Nursery would be an amazing site for a refuge – the nature is in the soil, the spirituality is in the soil, it was a place of birth and rebirth for decades as a nursery.
- Star Nursery could impact the neighborhood.

TUKWILA TEEN & SENIOR CENTER

APPENDIX C- CHAMPION WORKSHOP 2

Champion 5

- Star Nursery preferred. Easiest to build bc owned by city and biggest.
- But depends on what wants to be there.

Champion 6

- Bartell is her preferred.
- Works with a lot of immigrants who live around this area. Would be easy for them to get there and use the resources.
- It's on a bus line and not secluded (unlike Star Nursery)
- Could improve the park next door and use it for activities.
- Commercial space, great location, everyone already there.
- Could be a beacon on TIB – a place to unplug.

Champion 7:

- Star Nursery or Newporter are preferred 1 and 2.
- Communities change depending on what is in them – think about Allentown before and 20 years after the community center. It has vastly changed (for the good) due to the community center being placed there.
- Which site offers most opportunities?
- Star Nursery or Newporter. Star Nursery would transform the most but could also see a positive impact for activating the Newporter side of TIB.
- Tukwila is growing faster and faster – this building will be a place that sets the tone for a neighborhood.
- There are always more people moving to businesses on TIB.

Other conversation:

- There are two bus stops in one block.
- Newporter and Bartels have historically had problems. Development would improve them. Most potential to change the climate in Tukwila. Star nursery may change in the future with more sidewalks and lights.
- What do we want it to accomplish? Beacon or refuge?
- Tell me what you intend, and acknowledge my input, and then do what you intend. Don't schmooze me.

Today I leave this meeting feeling...

- Inspired x3
- Sad because I won't be a teen when it's built.
- Slightly exhausted but also excited.

- Informed.
- Misunderstood. (Later: Just because people don't agree with me doesn't mean that they don't understand me.)
- Enlightened.

Champion WORKSHOP 2.2

JULY 16, 2021

Voting (round 1) Report Back:

Champion 8

- It's important to be in your own place surrounded by other
- Food- Transfer inside and outside
- Flexible programming – do multiple things at once, choice.

Champion 9

- Still learning to be a senior – it is interesting getting older, think in terms of being a senior and learning about being a senior, things that we talk about that are important to us, knowing about your history from old people, you didn't know your history as a senior either.
- Many spaces are important to seniors
- Reflecting on learning your history from older people
- Knowledge of events depends on where you were brought up
- Grandma's Kitchen- Safe place / non exclusive / gender inclusion

Champion 10

- Space for community to come together to get to know their neighbors
- Senior/Youth program- give people a place to get together
- Teens can learn from the seniors can learn from the teens
- Precedent: Auburn: like that there is an example of teens and seniors together, good to know our history, learn from other generations.

Champion 11

- Never seen processes like this, interesting way to handle a large group of people in a small group way. Seeing what the whole has produced stimulates your mind.
- Large indoor space next to kitchen- Space for gatherings to happen (seniors, teens, or mixed groups)
- Dedicated classroom or meeting spaces for each group- include storage and equipment

TUKWILA TEEN & SENIOR CENTER

APPENDIX C- CHAMPION WORKSHOP 2

Champion 12:

- Continuous relationship between seniors and teens- teaching and re-teaching
- Shift from younger generation gathering and older gathering, seen a shift over the last two years, we are coming together.
- Build on relationships with those who have come before us. Dialog with others and have rich conversations and get deeper.
- Space to be able to relax with people- mentor or be mentored
- Holistic wellness center resonated.

Champion 13:

- Love the concept of bringing youth and elders together- powerful place
- Champion 13 has programs that reach all generations.
- Holistic spaces- outdoor gathers / gardens / each one teach one
- Give places where seniors can be together and where they can be with youth (and vice versa)
- Mental health- "we go through so much and sometimes you need someone older than you to tell you it is going to be okay"
- Provide places to learn from one another

Site Visits Discussion Before:

- Suggestion to look at fire station property across from high school.
- Active fire station, but that could move to Star Nursery and free up this space.
- City – we would consider it if Champions think it's a good idea.
- It might take longer because would have to plan for replacement fire station first.
- No sidewalks on this side of the street.
- Smaller site.
- But directly across from High School and 2 blocks down from SHAG.

Voting (round 2) Report Back and Site Observations:

Champion 13:

- Going out to site is eye opening- puts things in perspective
- Priority shifted- access became highest priority after going to sites
- Previously focused on spaces inside the center
- Now- sidewalks, traffic, houseless community members who might use garden spaces
- Parking is important to project, assuming free parking.
- Favorite space is Star Nursery
- Close to high school, close to senior center, close to community that will benefit from center
- No displacement, doesn't subject people to crazy traffic

Champion 14:

- Star Nursery
- Quite, large, spacious
- Can facilitate all of the aspirational planning the Champions have created
- We set tone that this is a new beginning
- Every young person has to be an advocate to the city
- Walgreens and other corporations push people out
- How can community set up their own community pharmacy that caters to their own citizens?

Champion 11:

- All sites have pros and cons
- Access is important to locate building
- Star Nursery- might be hard to access from people on the west side of T.I.B.
- Buses don't service this site
- Because of access, I discount it.
- Otherwise it is great.
- Bartell Parking Lot is good
- Need to mitigate building design against existing apartments
- Proximity to park is good
- SHAG seniors have good crossing at light and crosswalk
- Newporter site would be good if city had all 3 parcels
- Would need light and crosswalk at TIB

Champion 12:

- Newporter:
- Didn't like Newporter because of traffic and crossing difficulties
- Security would have to be more aware right on TIB
- Star Nursery has the most potential
- Flexible
- Near Foster and SHAG
- Gives kids easy access from school, don't need transportation to get to center
- Most space
- Already city owned
- Bartell site

TUKWILA TEEN & SENIOR CENTER

APPENDIX C- CHAMPION WORKSHOP 2

- Near park, could be upgraded by city during building construction
- Invest in surrounding community
- Project could be created in phases and built over time

Champion 10:

- Newporter site is too hard to get to
- You would have to add overhead crosswalk
- Traffic on TIB is too heavy
- Late night activities would release kids into a dangerous space
- Bartell Parking Lot
- Close to senior center, high school, and middle school
- Too small
- No parking on site
- Park across street is nice
- Could be an incentive to clean up park
- Star Nursery
- Spacious
- Harder for seniors to get to unless SHAG has regular bussing service
- Important for seniors to get to site any time, not just for events

Champion 9

- Are we trying to build for a diversity of races or are we trying to just accommodate the existing races and let them grow?
- I would feel bad if we weren't doing it for all the races, ours included.
- What do you view as the community voice?
- SHAG population is very diverse
- Everybody is welcome, if they qualify (financial filter for affordable housing)
- Are we going to be catering to everyone?
- What happens if you don't have a lot of 'others'?
- When people see change they don't what they are feeling as they change, they just see the change.
- SHAG will make an arrangement for transportation for the seniors
- Bartell Parking Lot is favorite site
- Very visible
- It's a blessing having SHAG there

Champion 8:

- Bartell's- but there are a lot of power outages in the area
- Has both qualities (refuge and beacon)
- Newporter is not enough as is, would be better if city had the other properties
- Star Nursery is nice because it is large
- I would rather over accommodate than under accommodate
- Could build a ground level basketball court that's always accessible, we don't have those in Tukwila yet.
- Teens could bring their friends from other cities.

Other discussion:

Champion 14:

- We need to set a new tone. It's a new day. New beginning with giving greater access. If Bartell sells, it will be to a bigger company that will be less affordable, and push out more people.

Champion 10:

- Are we trying to make a new community center? What happens to the existing community center? Because of its location it doesn't serve the community well. It is coming across like it is replacing the existing one.

Nate:

- This is new place is for teens and seniors.
- There is often a proclivity in community to think about current function, but what site represents hope and possibility? Think in hope, future, what could be rather than functionality...

Today I leave feeling...

Content, thanks for being in this group, being able to have a say, intrigued, excited, grateful

Champion WORKSHOP 2.3

JULY 26, 2021

ONLINE

Heart Space Prioritization

Champion 15:

- Resource Center – so important for community.
- Kitchen – obvious reasons, love food, multiple uses.
- Community event space to celebrate – like a “do everything” space.

TUKWILA TEEN & SENIOR CENTER

APPENDIX C- CHAMPION WORKSHOP 2

Champion 16

- Kitchen with a teen's food pantry and cooking classes.
- Gym bc it's so important that our young people and seniors stay active.
- Basketball court is super important in this community. People might not have money but everyone has a ball.

Champion 17

- Kitchen is heart of cultures – really important to bring people together.
- Gym – young people don't move their bodies enough; basketball is super important; general rec center like the gym should be convertible from court to lifting weights to dance floor.
- Outdoor space – so important for wellness and health.
- Resource Center that can be used for multiple things from financial literacy classes to mental health services.
- Precedent – look to Sea Mar Latina Chicano Heritage Museum – it's a clinic, museum, community center, gym, dance practice, stage, event center all rolled into one. People can rent it for quinceañera, or shows, etc.

Champion 18:

- All good ideas here.
- Multipurpose space for learning and flexible space.
- Center should be created in a way where lots of activities can happen- events, fitness, resources...
- Flexible – do many things here.
- Resource Center – could have a full-time navigator to help people locate services in the community.
- Multimedia Center to help people bridge the digital divide for both teens and seniors. Teens could also help seniors with digital learning to help them connect to family far away.

Champion 19

- Childcare – everyone needs childcare so they can participate in community things.
- Partnership – always learn from others.
- Computer room for teens to teach seniors or help them overcome challenges connecting. Champion 19 works with many seniors and technology is a challenge which keeps them isolated.
- Tranquility garden – bring peace, do storytelling
- Resource Center – not enough resources/info in Tukwila – we could all use more.

Champion 20:

- The purpose of this center is to be versatile and connect different age groups.

- Center should provide spaces not already found in Tukwila.
- The Library has a computer room; there is already a gym.
- Choose things that could be versatile, could move around, could create calm and chill.

Champion 21.

- Resource Center for flexibility, versatility – private spaces and navigator support for people to feel comfortable but does not need a lot of space.
- Central piece of this is a Kitchen + connected spaces for versatility.
- Should be a beautiful space – could be rented out to other entities to make operational money for the center.

Champion 19 (and 18, 17):

- There has been lots of displacement/trauma in the Tukwila community not only at the Justice Center but when building the new apartments near the transit center, even though those apartments are affordable housing.
- It cannot happen again in our community. There must be lots of information and input from the directly surrounding community wherever it is being built.
- The City must go to the homes and businesses surrounding to know what impacts it will have on them and how to make them whole during construction and after.

Champion 17.

- this is so important; I was thinking about this but thank you for just coming out and saying it. There are immigrant businesses in/near Bartell – they might have more business during construction from the workers, but would the community not bother to go here during a 2-year construction process where the parking lot is not accessible?

Site Discussion

Champion 16

- Star Nursery – location, size are beneficial.
- Worried about the residential neighborhood especially around late-night events.
- But got a really good vibe at the Star Nursery.

Champion 17:

- Star Nursery by far.
- Like that it's close to the high school – this neighborhood is used to lots of young folks walking through to the high school and middle school.

TUKWILA TEEN & SENIOR CENTER

APPENDIX C- CHAMPION WORKSHOP 2

- Like that you don't have to cross TIB to get there for SHAG, the church, the library, the high school/ middle school. There are lots of stories from young women about how unsafe TIB is and these people would not need to deal with that.
- Good vibe from this neighborhood with the community garden and other spaces named above.
- Excited by this site in a way that she was not at the other sites.

Champion 19.

- None preferred – need more information from the surrounding communities.
- If we could get the comparison from community members about how they feel about it being in their neighborhood, that would be the most meaningful information to have.
- At Bartell – the immigrant community surrounding this may not want it, but we'd have to ask them to find out.

Champion 18.

- I second what (Champion 19) is saying – community input for each site is very important.
- Star Nursery is preferred – large asset that Tukwila would give to teens and seniors; signals a large investment and importance.
- If designed right, impacts to neighborhoods can be mitigated – how can it benefit the neighbors? What do they want/need?
- If not enough money to develop the site, surrounding neighborhood, and everything wanted then it could be a phased project. What can we do now in phase 1, phase 2 five years from now, etc.

Champion 20:

- The first 2 sites (Newporter and Bartell) could hurt local businesses, and she does not want to see that happen again.
- Star Nursery preferred – it would affect the residential neighborhood, but it could be for good for all the reasons (Champion 17) mentioned.
- Not many students at Foster High School drive, so there are always students walking through these neighborhoods. They could also benefit from sidewalks and streetlights.
- Even though can't go as high in the residential area, the site is larger so it makes up for that.

Champion 15:

- Star Nursery preferred – agree with all that has been said.
- Seems less problematic than the others.
- Also, outdoor space doesn't seem like it can happen at the other sites.

Champion 21:

- Star Nursery preferred.

- Like that Bartell is by the park, but Newporter does nothing for him.
- Star Nursery equals opportunities for community – has the idea of refuge as it's off TIB, but it's still close to things.
- Leverage all funding opportunities whether it's phasing, philanthropy dollars, or other private funding, bonds, etc.

Today I leave feeling:

Hopeful, excited, inspired, engaged community going forward, enthusiastic for what comes next, excited to see this project for the City of Tukwila, looking forward to staying involved, optimistic and hopeful for future of the center.

D. Champion Workshop 3

Adjacency Diagrams & Resources

Champions reviewed and refined the unfiltered data from Workshops 1 and 2 using cutouts of the prioritized initial program elements. Champions created early concepts of building organization with “adjacencies” that represented the relationships and importance of program elements. These diagrams became the basis of the building program. Champions also created a list of missing or under-served resources that affect Tukwila teens and seniors. These lists became the basis of a deeper assessment of existing services and resources in Tukwila.

This meeting was held in person at the Justice Center with an additional session virtually using Zoom and Miro.

The notes, Champion adjacency studies, and Champion generated resource lists can be found in the following pages.

TUKWILA TEEN & SENIOR CENTER

D. CHAMPION WORKSHOP 3

CHAMPION WORKSHOP 3.1

JULY 30, 2021 (1:00 PM - 4:00 PM)

Champion Workshop 2 Report Back Discussion

Champion 3:

- It's interesting that we're seeing some "naturally occurring consensus" throughout the workshops. Especially as in each of the meetings people don't seem to be leaning one way or the other.
- The Newporter site should have more emphasis on being for the Justice Center displaced businesses.

Champion 12:

- It's trending towards multiuse space.
- Thank you for doing this work – everyone is being heard. Do this in the future for all city/community partnerships and Tukwila will thrive.
- How do we address the inequalities and make this not just about one thing?
- Leave space open for ideas that haven't come forward yet.

Champion 23:

- Agree. Thank you for reaching out like this.
- Also agree – this should be a multipurpose space and ready for future uses.
- Concern – neighborhood development and gentrification with Bartells and the apartments next door or the residential around Star Nursery, especially the adjacent trailer park that would end up between TIB and the new center.
- Many people won't have the means to rent another place in Tukwila or near here if they get priced out of their current rental.

Champion 22:

- Concern- Recent immigrant populations speak multiple languages, but English might not be one of them. They are often/always among the people who are voiceless in these community engagement processes. These people may also not be literate in their spoken languages so Zoom Translate, written polls, or flyers aren't an option.
- This piece of engagement is not there yet.

Champion 10:

- Thinking along the same lines as Champion 23 re: displacement. People will lose their homes near wherever this is built.
- She lives near Star Nursery and currently there are large trucks parking/driving through that neighborhood and causing traffic issues. This might only get worse with this center. Semis might park in TTSC lot after hours. It's dangerous because you can't see around them. Will traffic concerns only get worse wherever this is located?

Champion 1:

- Has appreciated this process to see the needs/wants/concerns of the community as a whole.
- Definitely shares concerns around displacement especially with the renters, but also with property taxes and homeowners.
- And we need to acknowledge there is more work to be done to get "othered" voices – non-English speakers, people with disabilities, people experiencing homelessness, etc.

CHAMPION WORKSHOP 3.2

AUGUST 3, 2021 (5:00 PM - 8:00 PM)

Champion Workshop 2 Report Back Discussion

- General consensus is that Champions seem to be on the "same page" looking through the pro/con boards.
- Doesn't feel like the opinions were steered.
- Multi-use space is a benefit for diverse groups.
- Tension between neighborhood development and gentrification.
- It's important to be in your own place surrounded by others who are the same.
- Liked seeing the sites; excited for young people.

Champion 11:

- After I left and considered people's input, most of it didn't represent seniors. I felt the need to represent all seniors, all the people who can't afford transportation- no public transportation to Star Nursery.
- I left the last meeting feeling a little defeated and I wasn't sure if I were going to return.
- We need more viewpoints from seniors – it feels like it's just me trying to speak for all seniors, but I don't know all senior experiences especially in our diverse community.
- Star Nursery might be the number one site in the Champion vote, but my vote was for Bartell because of the transportation issue. The closest bus stops are 144th or 142nd and Tukwila has LONG blocks.
- I am a very active senior, but by the end of a long day like this I had to park in an ADA parking stall to minimize the walk into this building.

TUKWILA TEEN & SENIOR CENTER

D. CHAMPION WORKSHOP 3

- Also, how will the people who live on the other side of TIB, many of them immigrants, make it to the center as there is no public transportation from that side.
- I'm not sure this concern about accessibility and transportation was truly heard.
- One of the biggest issues with the community center is that there is no good transportation to it. (Later the Mayor of Tukwila mentioned this as one of the biggest challenges the community center faces that we should not see in this project.)
- My days of speaking up at Metro/Sound Transit are over. No worried for me, but for those who can't afford to get there.
- Consider both age groups. They all need transportation.

Champion 4:

- Can transportation be addressed with programming? It's an operational issue. Star Nursery seems to be the best site except for transportation. Is poor transportation a non-starter?
- It sounds like we need a "bridge" to cross this issue – it is not insurmountable.
- Maybe it's a different argument with King County Metro when there is a community center to access here. (Except the community center doesn't have a stop still 20 years later...)
- We should also look at the pros/cons boards for the "cost of the cons" some of them are more expensive than others and might need to be weighted.

Champion 8:

- Agree with Champion 11 about transportation, feels like the area is going to change.
- Teens and seniors both seem to get marginalized in decisions.
- What about a shuttle program? Via is going to the community center now.
- Could have something that runs just certain hours of the day.

CHAMPION WORKSHOP 3.3

AUGUST 16, 2021 (5:00 PM - 7:00 PM)

ONLINE- Zoom/Miro

Champion Workshop 2 Report Back Discussion

Champion 18:

- Seeing all the votes together is nice to see and themes seems to carry over to other workshops.

Champion 15:

- Lots of consistency and similarities on spaces and what brings the community together. Also with understanding Tukwila and where the most appropriate site would be. WE know Tukwila and it shows.

Private space for services - counseling, health worker, social worker, etc.

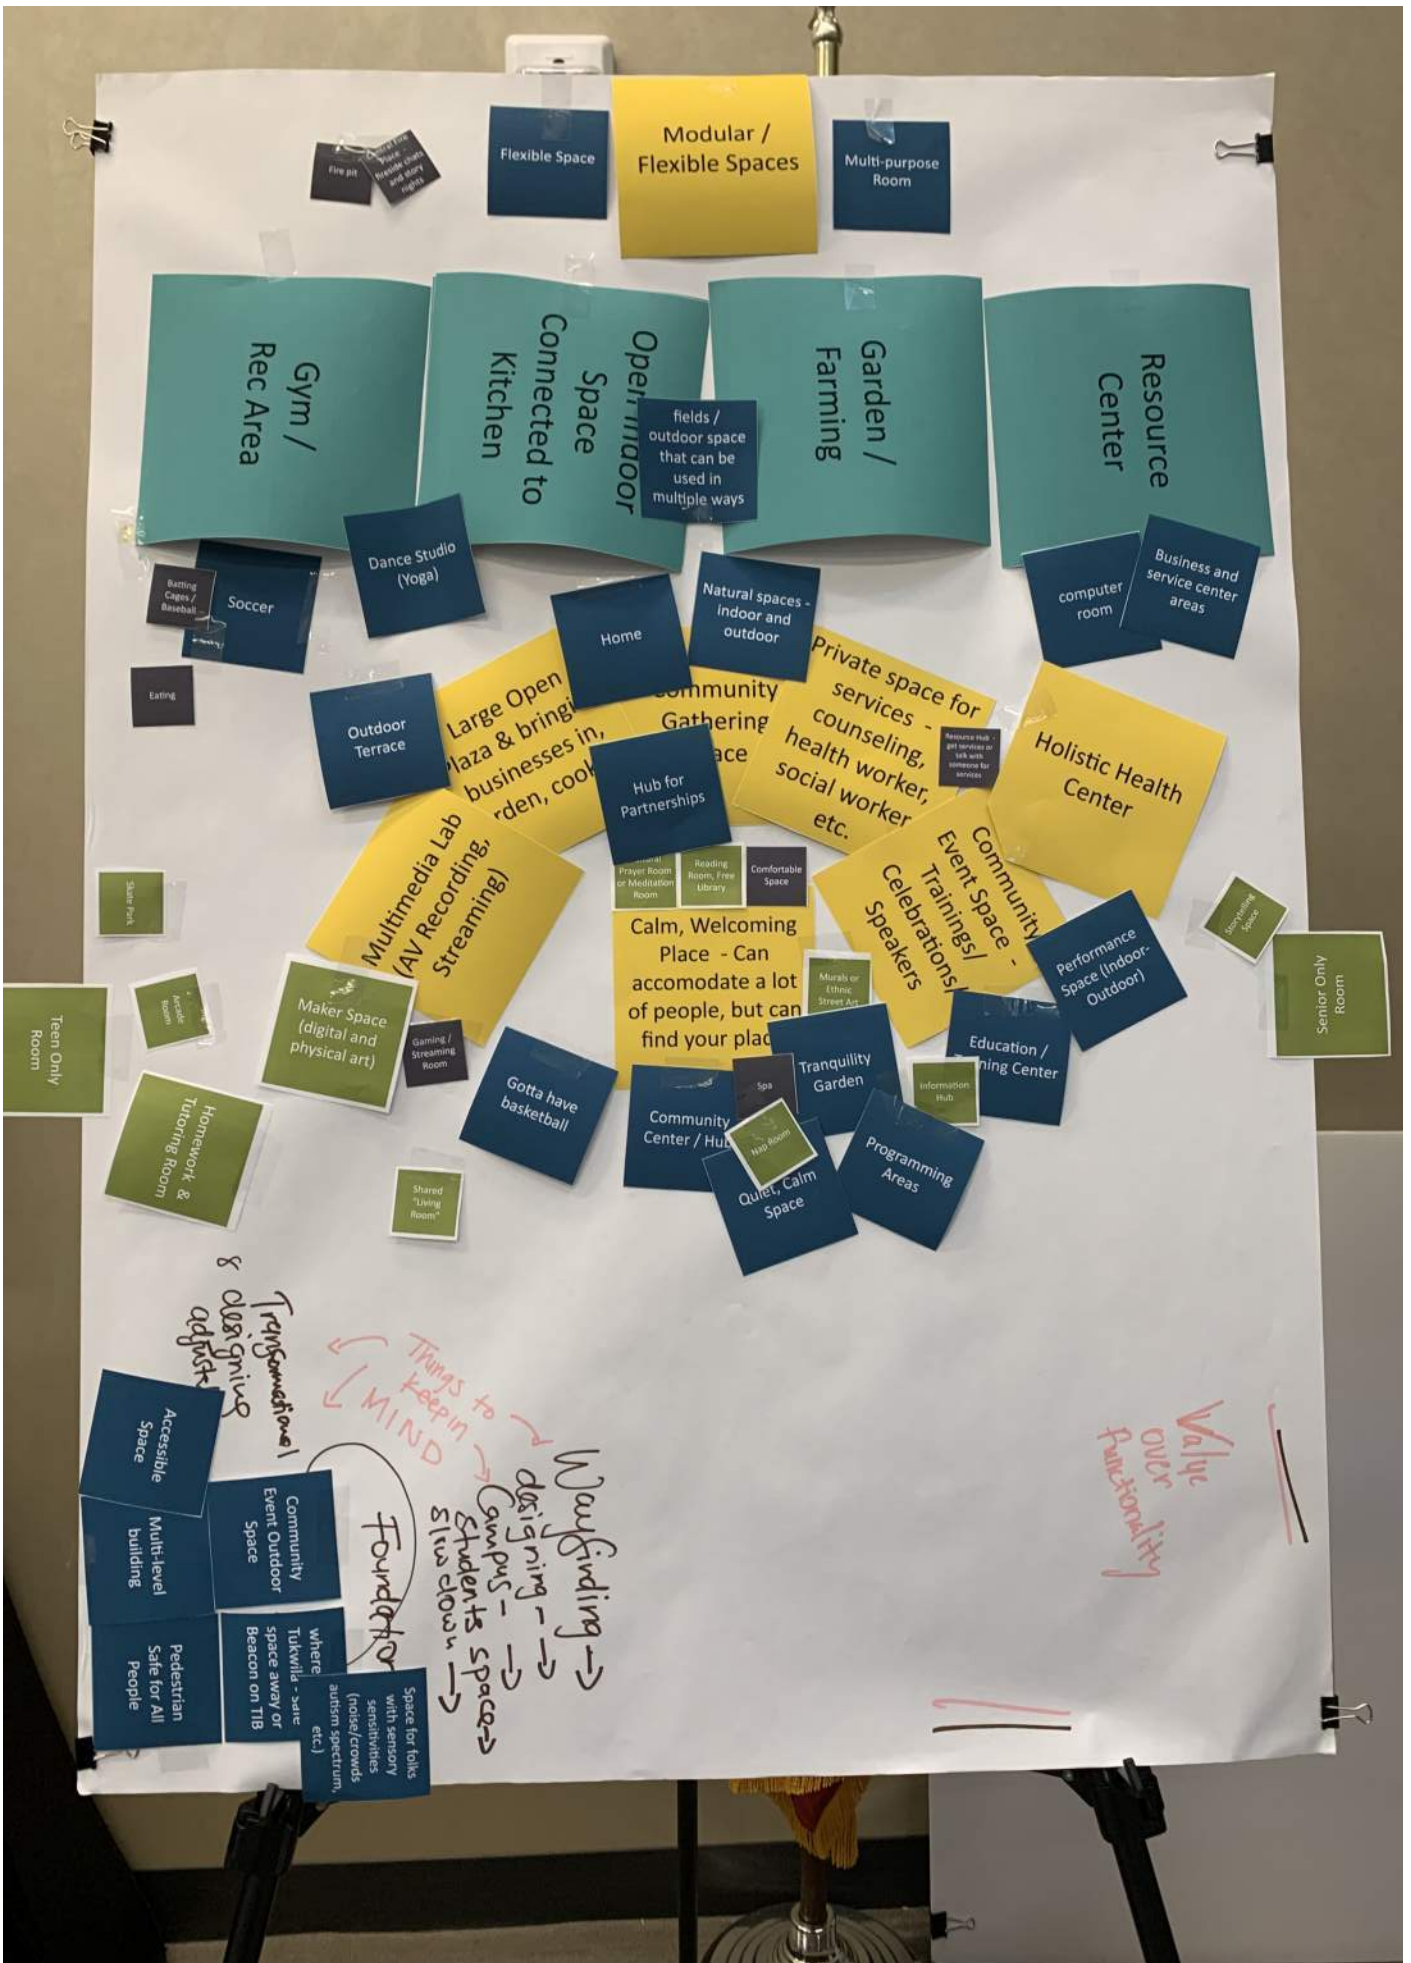

Holistic Health Center

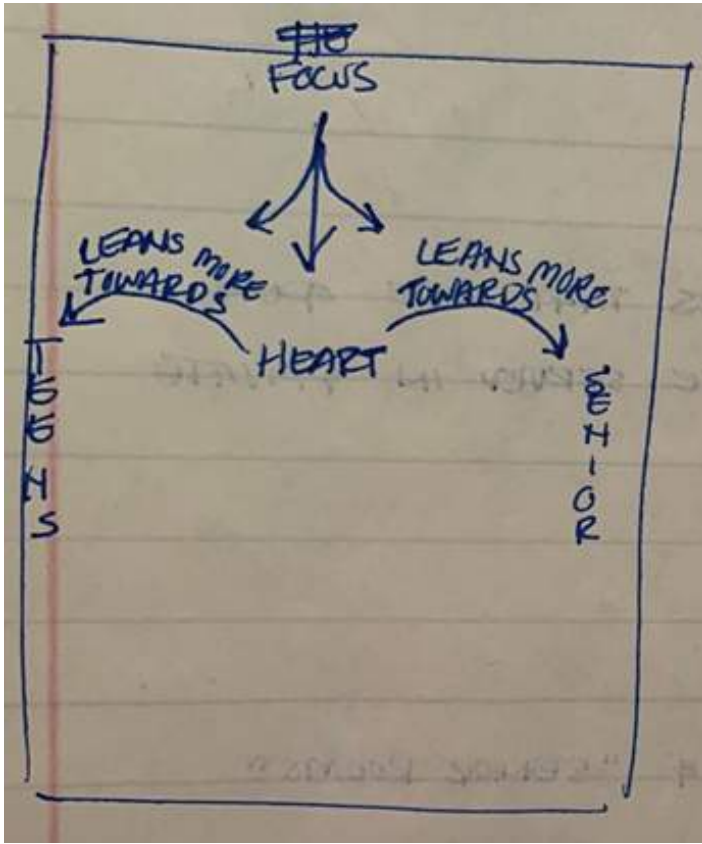

UTILIZE FOR NATURAL PATHWAYS / PRIVACY / ETC.

Adjacency Activity (Group 1)

- Big Idea: Heart is not physical idea but is the feeling/atmosphere of this place – values in the center that radiates to all grouped spaces.
- There should always be room to be able to observe/spectate activities that you aren't directly involved in.
- Resource center, hub for partnerships, private resources – may need to be delineated to separate resources that are open and available to the public versus resources that are served in private space. One side quiet/private; other loud/outward facing.
- Definitely need space for “Co-living” between teen only room and senior only room. Spontaneous interactions, hang out, have tea.
- Gym is separate – its own space. OK, not completely separate.
- Business is near community room so teens can listen in on entrepreneurial spirit.
- Open indoor space connected to kitchen – can be large open plaza that acts as a convergence zone for activities. Also open to large outdoor space?
- “Playful Space” versus “Play Space” – not a physical playground but a feeling of fun & play through the entire project. Goes in the middle with the heart feeling of this place.
- If pet area outside, it should be separate from main outdoor area for people who are afraid of animals.
- Multimedia and Modular/Flexible go together with options to allow for multimedia equipment to be used in various spaces throughout with strategic placement of outlets or electrical elements.
- “Campus” feel.
- Open to multiple ages and ethnicity but prioritizing teens and seniors.
- Integrated green elements inside and out.

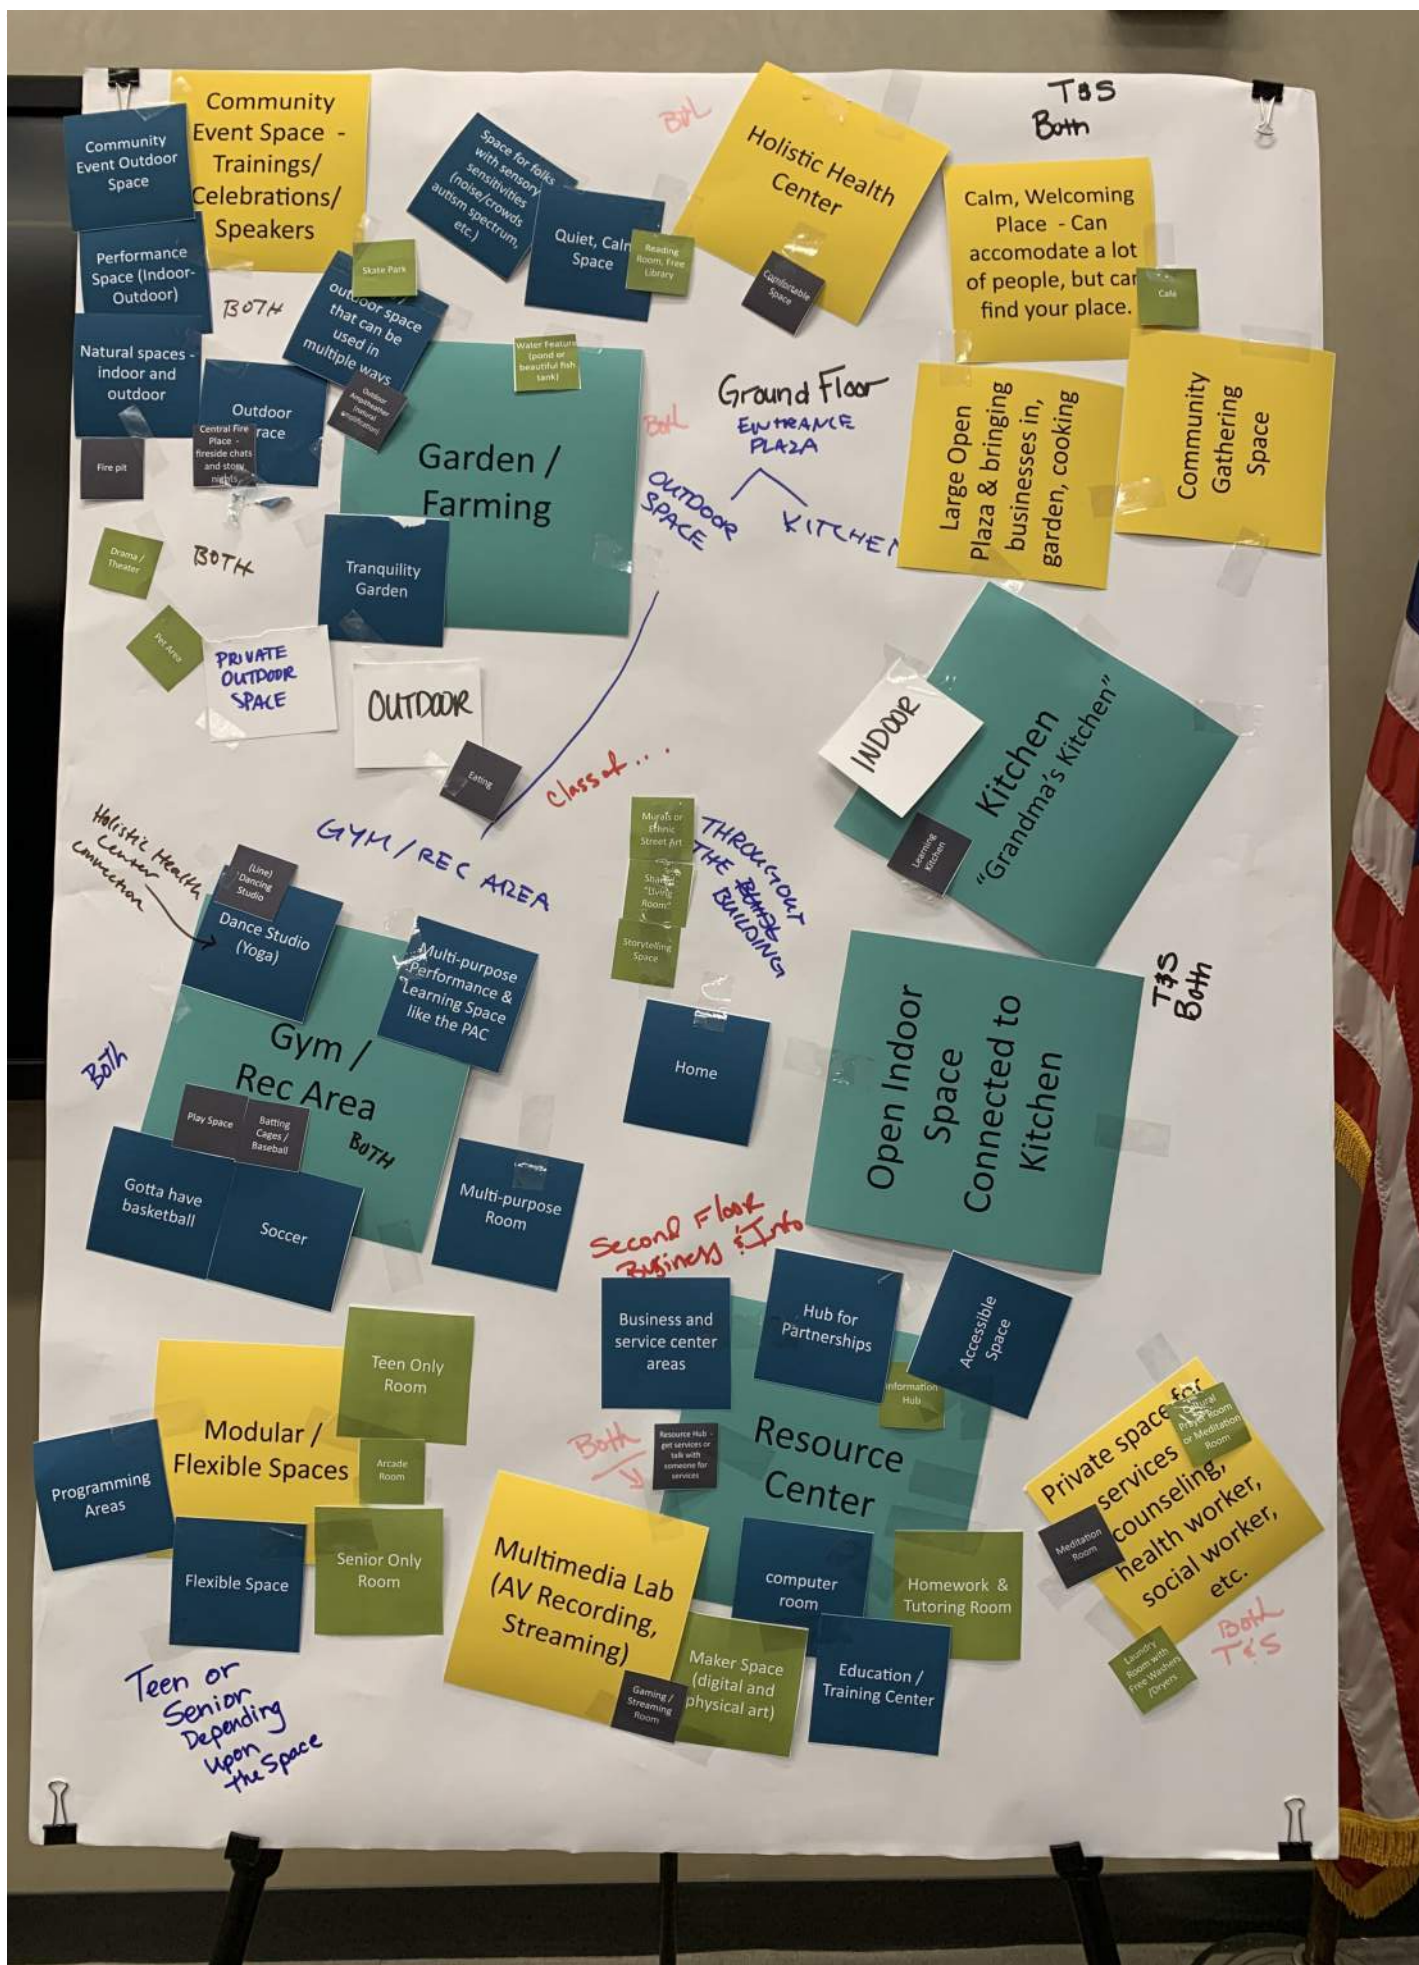

Adjacency Activity (Group 2)

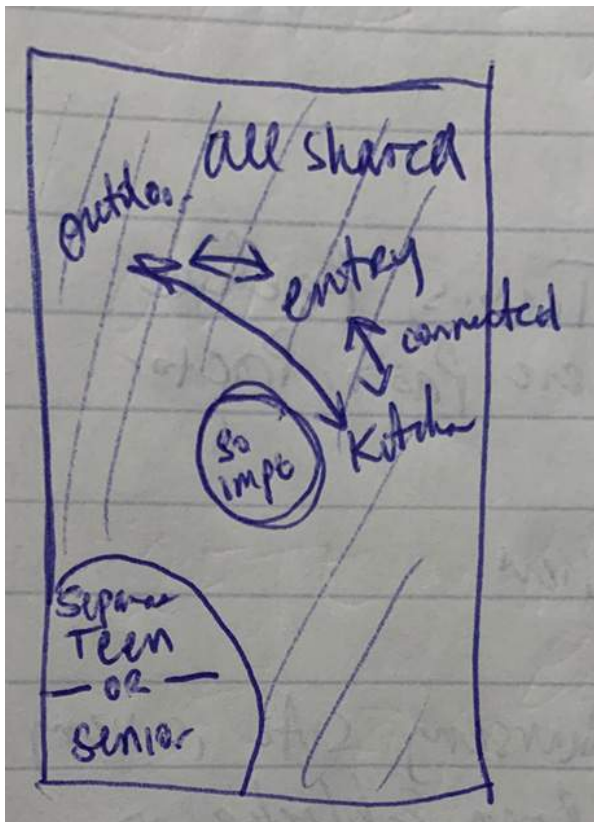

- Big Idea: Flexible/Modular space is the focus, everything trickles down from there. Right side is more senior focused, left trends towards teens and as they meet in middle there is more overlap.
- Values before functionality – for example the garden should be calming before it has function, build it from the value.
- Champion 10 wants space for teens that they can't get kicked out of. Future of society, contributing force.
- Kitchen goes with Open Indoor Space
- Teen room can be associated with resource center as a place teens can get information on college prep and sporting programs, etc.
- There is a balance for accessibility between the law and what is actually accessible. Think beyond ADA. Stramp at Jackson Hill in Seattle as good example of integration.
- Dance and culture go with health and gym.
- A space to share your experiences. And to help.
- Remove foundational (given) spaces.
- Pedestrian access across Tukwila International Blvd is a concern for any space.
- We could repave 42nd with brick to slow traffic rather than adding sidewalks (pedestrian streetscape)
- Add street lights to roads for walking safety.

TUKWILA TEEN & SENIOR CENTER

D. CHAMPION WORKSHOP 3

- Make space a student owned space. Have some evenings 'teens only.' Open Campus design that includes Foster and Showalter.
- Foster and the school district are integral parts of the Tukwila culture.
- Programs are going to drive people to the site, but the seniors and teens need to be the ones to build that out.
- Core value is always that the space will be used to bring people together.
- Guessing for what the next generation may want is risky territory. The current teens are not going to be using the facility.
- Someone has built for you, this is an opportunity to build into the future.
- Core issues that support culture, that are neutral and not program, don't change much over time
 - Create flexible space that can be transformed with the needs of the community
 - Move away from function and think about value. Value Over Functionality
 - Bring community values forward as things that transcend change.
- Everything is a modular/flexible space – it is the umbrella for the project.
- Functionality should start with the values in mind
- Have overlap space for teens and seniors with a way to peek in on what people are doing
 - Keep synergy so there is always an exchange of learning
 - Keep each other young
- Board is arranged from left to right, with largest ideas moving to most granular.
- Teen on one side of the board and senior on the other, things in the center are in the middle
- Murals and street art is very important
 - Welcoming people as they come in- Reflect Tukwila
- Current skate park is not accessible
- Tukwila Community Center is super inaccessible – no transit, on the other side of the river.

Adjacency Activity (Group 3)

- Big Idea: Everything is shared for both teens and seniors except for the flexible/dedicated teen or senior only in the lower left corner.
- Flexible programming spaces are the only ones to provide dedicated teen or senior space.
- Holistic health center off the entrance, calming space.
- Gym connected to holistic health with yoga.
- Kitchen connected indoors and outdoors.
- Community gathering/kitchen/garden at the heart. Food connects us all.
- Gym rec, own area at the top.
- Have designated quiet areas and areas to be noisy.
- Gotta have art, natural elements indoors and outdoors.
- Near entry – sensory/holistic health center (so you don't have to go in and become overwhelmed; can be calm space first if needed.)

Water Feature (Bubbling Rock, Fountains, etc.)

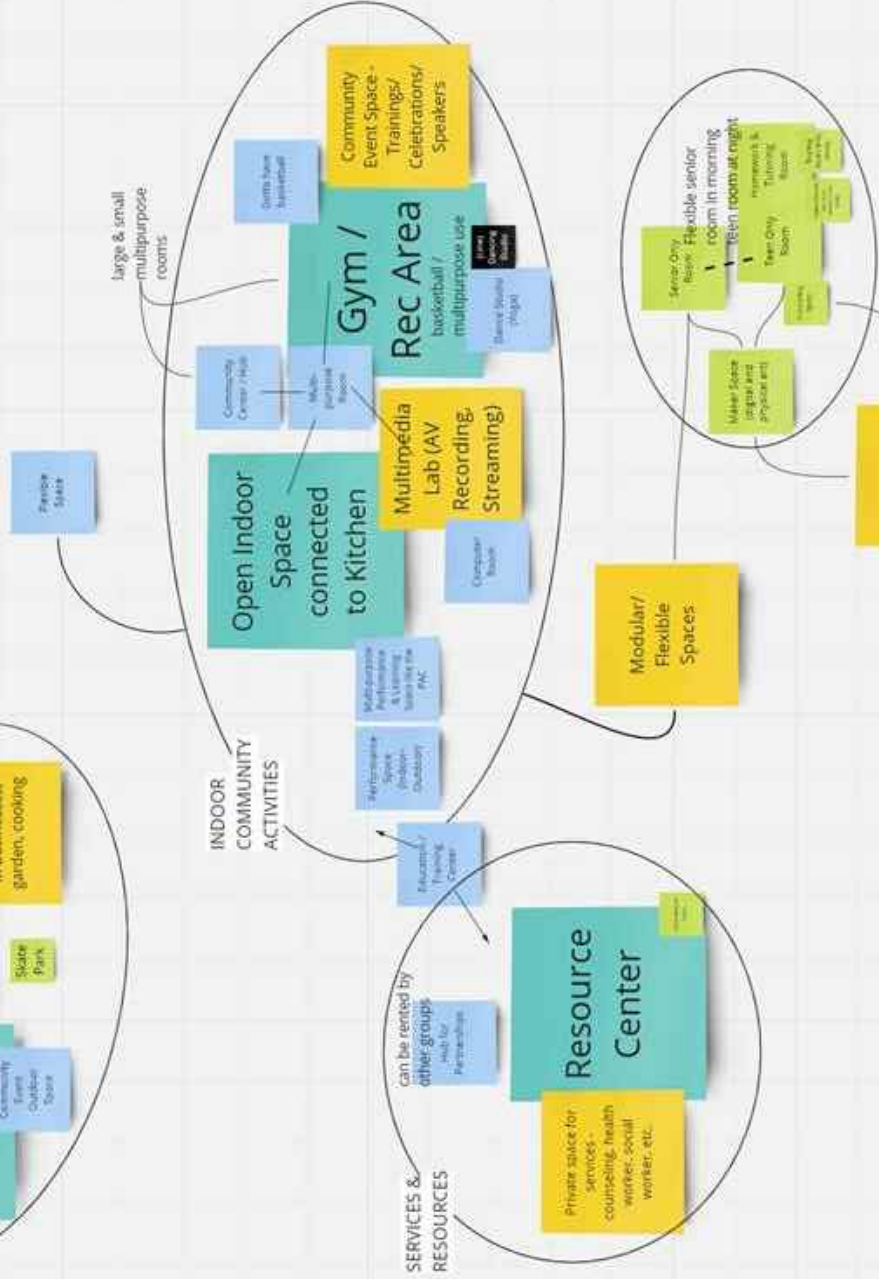

Adjacency Activity (Group 4)

- Big Idea: Middle is all Community Gathering Space as a physical place at the heart of the building, and community gathering should be an element in all aspects of the building.
- Community gathering should be a place without exclusion.
- Is it a given that Teens and Seniors would have their own space? Maybe all spaces are everyone's; no separate space needed.
- Resource Center might require privacy.
- There should be a large indoor/outdoor connected space. Maybe connected to kitchen.
- Gym/rec area has to have basketball. Tukwila is a city that plays basketball without any accessible courts/hoops.
- Multi-purpose room can also be a dance studio.
- Fun level on top floor? Gym, garden, gathering.
- Murals throughout and nature throughout.

OUTDOOR COMMUNITY ACTIVITIES

INDOOR COMMUNITY ACTIVITIES

Adjacency Activity (Group 5-Miro)

- Big Idea: Everything in the middle should be multipurpose space. Very few spaces are not able to be multipurpose (ie prayer room, child care, and weight/equipment fitness space should be always available as that type of space.)
- Teen/Senior only room can be flexible – senior only in the morning, teen after school.

Last Champion Workshop Thoughts – What are your hopes for this project moving forward?

Champion 12:

This is the 1st time we've come together in person in forever and there was so much hope, sharing, vulnerability, and trying to make this place better. Want the people using this place to be able to look back in 50 years and see a group of people come together to be brave in uncertainty and fighting to make this place for Tukwila. Hope that we do this for something greater than ourselves.

Champion 3:

Hope that the overall community and especially the people who are near the chosen site will have just as much buy in as we do. Language is too important not to mention here. "Tukwila" is a word from the native people who's land this City is built upon. It was part of a trading language developed in this area because of the Duwamish River. The river brought trade of ideas and history. It was and is a central hub bringing people together. Today the Duwamish River is lost to Tukwila – it is ours, but we can't access it. What can this place be to bring back the language of the Duwamish River and of Tukwila?

Champion 10:

My hope is that this center is a place that teens and seniors cannot get kicked out of. Having more community beyond teens and seniors is fine as long as teens/seniors are the PRIORITY. Teens are our future that we want to come back to Tukwila to raise a family. Show them they are wanted.

Champion 1:

My hope is that the needs of community are met through this project. Make us stronger as a community. When you think of Tukwila it is diverse, but we lack resources. Hope to have them here.

Champion 5

My hope is that it happens sooner than later.

Champion 2:

Champion 10 is right – teens and seniors get kicked out of the community center for rentals, rules, or because they can't get there. There is no bus and many of us can't yet drive. My hope is that there are no closed doors to using this space.

Champion 23:

I want to thank Nate and Rachel for this whole process. My hope going forward would be to continue having community outreach like this that elevates the community experience. Create THIS culture.

Champion 24:

That people will want to use this place.

Champion 7:

That this place is well maintained and used by teen and seniors for many years to come.

TUKWILA TEEN & SENIOR CENTER

D. CHAMPION WORKSHOP 3

Champion 11:

Accessibility for all teens and seniors in all ways – culture, language, transportation. The more the community participates the more they feel welcome.

Champion 16:

Teens and seniors feel it's a positive space that they can feel part of and want to come back to.

Champion 25:

That there is space in the building where someone can go to re-center themselves.

Champion 6:

That we hear the needs of the limited English speakers. They are the voiceless and not at any tables. Their needs are great as well.

Champion 20:

There's so much I have yet to learn, and I hope we all can continue to learn and choose to close the gaps in teen/senior homelessness, transportation, etc.

Champion 11:

This was a very unique process, and I am happy to have stayed with it. People could say what they really thought and can see the information being synthesized together. It is a really different and good process.

Tali note – also not at the table are people with disabilities.

Champion 15:

Representative of Tukwila and its communities and diversity. It's often said, but not done. Represents the communities we serve and their needs. Build a space to address all the barriers. Can be a great space but it must be intentional.

Champion 18:

Agree with Champion 15 and add- First class facility that provides support and resources to improve the lives of seniors and youth- particularly the most vulnerable.

4 Questions

The City of Tukwila met with members of teen and senior groups within Tukwila, to present the data that was gathered during the Champion workshops and to ask them four questions. The information shown represented the various spaces and programming elements that were produced through previous engagement efforts. See the Space Types & Bubble Diagrams in the report for more information. Each participant was asked:

1. Did what I show you resonate with you? Why or why not? Or- did you like what you saw?
2. What was your favorite part or parts? And why?
3. What is missing from what I have shown you? In other words, what would make you say to us, how could you have forgotten to put this in there?
4. If not everything can fit into the building and I need you to take out two things to make everything else fit, what two things would you take away? And why?

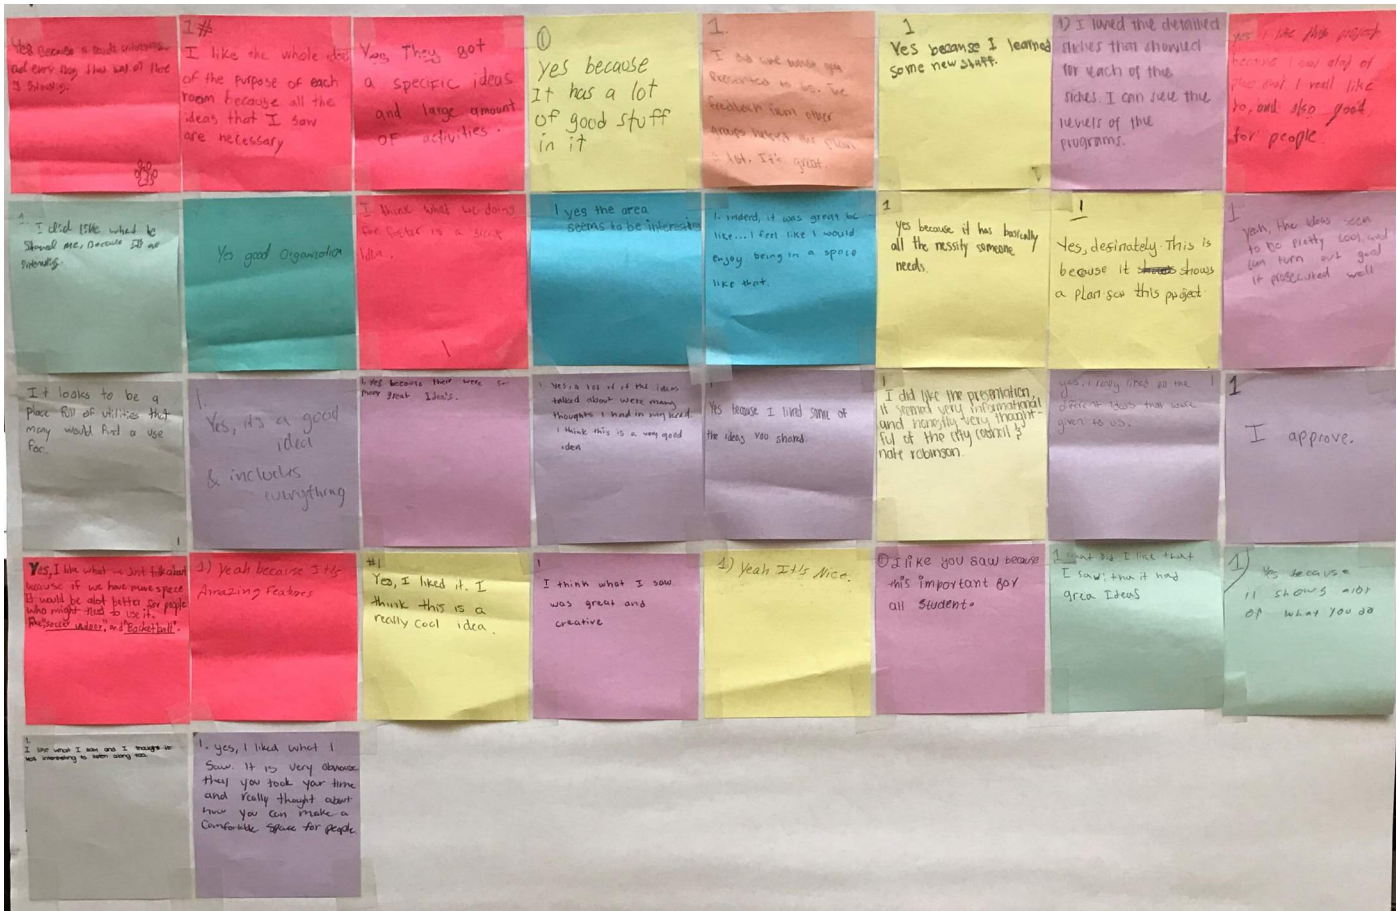

The following pages compile the answers from students and community members throughout Tukwila.

The bottom note is numbered '1' and contains the text: 'A pool is missing', '- pools, hot tubs, jacuzzis, showers', '- weight room', '- vending machines', '- water foundation lights', '- pretty stuff in the outdoor spaces'.

3 I think you forgot to add a place for video games and/or board games

3. TV Room
table
couch

Game room with like a Pool table, foosball and maybe like Arcade Machines

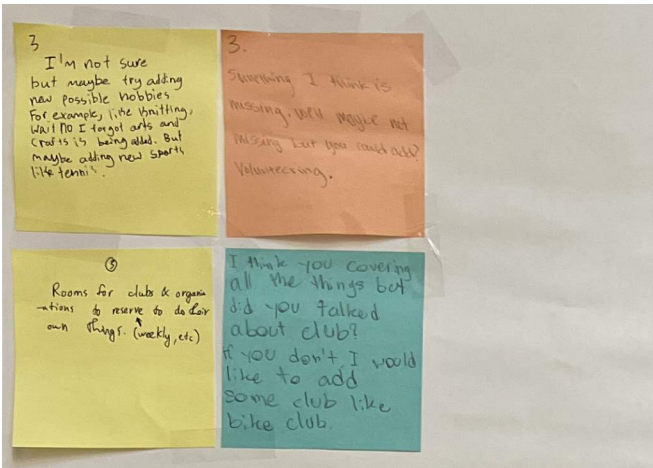

3. Game room - old folks love chess and Board games.

I would say an arts & craft room so we can show our creative.

Tukwila Teen and Senior Center Community Feedback FINAL Document

Groups that I met with:

1. African Born Seniors Group – 10 people
2. Teens for Tukwila – 6 people
3. Community members – 2 people (w/ 1 champions)
4. Community members – 3 people
5. Community members – 2 people (w/ 2 champions)

Questions asked & Answers:

1. Did what I show you resonate with you? Why or Why not? - OR Did you like what you saw? Why or Why not?
 - a. African Born Seniors Group:
 - i. Yes – It really represents a lot of what we needed and what other groups needed.
 - ii. Happy – thumbs up.
 - iii. Having events and kitchen and dancing and it is all included.
 - iv. People can get together and cook and get together that is huge.
 - v. We all approve.
 - b. Teens for Tukwila
 - i. Partially – b/c it's hard to translate the bubbles into how it would really all connect.
 - ii. I like the idea of the spaces, but I would like to see it more. It captures the feedback that was given from the community very well.
 - iii. It's good, but it is a little mixed up. It could be more spread out.
 - iv. I like the ideas, but it seems to good to be true. I'm wondering how we can pull it off and if we can pull it off.
 - v. I really like it too – it sounds really cool and really nice. Some things are mentioned multiple times (ex. Arts and crafts) it makes it kind of hard to see how and where everything will fit together and be located.
 - vi. I like the ideas – some of the options for what is going into the rooms make it, but seem like another community center.
 - c. Community members groups
 - i. Yes, I like what I see, but I am unsure of what will be prioritized. Because everyone has different priorities. Feeling weird about not everyone getting what they want to be prioritized. I like the idea of different ages getting their own spaces even though they can be together.
 - ii. Yes, the whole project resonates with me. I like how evenly balanced the teens and seniors have options. I like the ideas for both the teens and seniors. I am interested in in seeing how it all comes together once it is implemented. I really think that every space was very evenly balanced between teens and seniors. I resonate with the seniors b/c I have a grandmother and I realize who important it is to invest in our seniors and how important it is to invest in the youth (future).
 - iii. Focuses on creators and community building which aids personal development for teens in the future. Creating is big because culture encourages creators

now with social media movements. Having a place where creators can be facilitated and encouraged would be extremely inspiring and motivating.

- iv. The living spaces accommodate simple social, emotional, and physical needs. Each of the living spaces somehow, somehow meets into one of those three categories. If we meet those needs, we have a great, basic foundation already made to build on. Ultimately, it's a good start.
- v. It does, it definitely feels a bit abstract when looking at the slides but it's still early on to have an actual layout. All of the major spaces I think are great and don't need to be changed.
- vi. Yes, b/c now we have gone through the selection process of what people want. We have spaces that are flexible and where people have the option. As long as these spaces are set up in a way where their can be cross-pollination will allow us (as leaders) to ability to program flexibly. I really like the flexibility of the set up. Having multiple spaces and a lot of different spaces and uses for those spaces. I can see myself in there. Teaching young people and seniors in the community.
- vii. I see the community in it. I see Tukwila in all of the rooms and it resonates with me. I see our community using these spaces.

2. What was your favorite part(s) of what I showed you? And why?

a. African Born Seniors group

- i. Multi purpose, flexible spaces, you listened to what we said.
- ii. Talking about African immigrants – how can we do our own cultural events. Tukwila has so much diversity. Seeing that there is food, dancing, cooking, and gathering is very good to see.
- iii. I see that there is opportunities for us to do so many things
- iv. Learning, crafting, social areas, outside areas, it is good to see all of these things represented. Prayer, quiet places, everything is covered.

b. Teens for Tukwila

- i. I like how that there should be enough space for some of the important things.
- ii. I really like the areas that would have mixed with seniors and teens. It's important for the two groups to interact with each other b/c they can learn a lot from each other.
- iii. I like how multi purpose each space is. B/c it's not just narrowed down to one thing/activity that we could do. It applies to both seniors and teens.
- iv. I like how the activities are for both seniors and for teens
- v. I really like how broad the idea structure goes. It is not narrow. It flows together and you can really see how different spaces can go together and in what ways they overlap.
- vi. I am really pleased with how simple it is. B/c it easy to pull out information and to see the ideas that the community came up with.

c. Community groups

- i. I liked every area. I liked the gardens, sensory room (I was not expecting that), the shared space between the teens and seniors, study room. I think that all the spaces were grouped well. I like the idea for walkable areas and seating areas for the outdoor spaces.
- ii. I liked the sensory room, prayer room, shared spaces for teens and seniors, the outdoor spaces (because it gives you the indoor/outdoor space). I really liked how it was all put together and how teens and seniors were prioritized. I was

really balanced in how it was put together. I liked the holistic health and the learning spaces (they are really important).

- iii. Outdoor spaces, Holistic Health Spaces- providing things that people may critically lack in life. Makes it a welcoming space and place people can feel comfortable.
- iv. Health spaces and education spaces are my favorite because it puts kids into long-term thinking perspectives that result in growth
- v. My favorite space are the creator spaces, such as the networking rooms. Networking is a powerful tool that can offer folks resources and support. Also, elderly folks can be a part of this as well. Networking is for all ages, and it can benefit both sides of the age group. Also, the resource rooms like financial learning, cooking classes, and the garden are dope. These are all important adult-like skills that many lack — including me. It would be great to have these resources for community members to use.
- vi. ALSO, THE PROVIDER ROOM IS DOPE. I LOVE IT.
- vii. I like the wings/spaces approach. The holistic health space is my favorite space. I can relate to have a place for myself. Having a sensory room. To have a space to go after school or after engaging with their own children. A self care spot that I know I can go.
- viii. I like the outdoor and the extra large community gathering space. We don't have enough activated outdoor spaces in our community. This community needs a large gathering space closer to TIB.

3. What is missing?

a. African Born Seniors Group

- i. I think you have covered.
- ii. Security and some sort of on-site mental health.
- iii. On call and/or on-site mental health (professional services)
- iv. Potentially volunteer
- v. People representing different backgrounds
- vi. During events.
- vii. Making sure that we are open to everyone.

b. Teens for Tukwila

- i. I can't think of anything. I think that you captured what has been said.
- ii. No I don't think that we are missing anything glaring.
- iii. Nothing for me – everything is straight forward.
- iv. I can't really think of anything else that I would add.
- v. I think it is good. Not sure what else to add.
- vi. It's great nothing else to add.

c. Community members groups

- i. We need mental health professionals for the teen population and someone different for the senior population. Someone who can identify with the LGBTQ population. Scenario – someone who is experiencing homelessness needs to come in and use the bathroom. Could there be a room/space on the first floor that allows for that person to have time gather themselves that won't intimidate participants but will allow for them to take care of themselves.
- ii. We need to prioritize a mental health space. I could look like hiring some mental health experts/professionals (people of color preferred). We need to have competent, compassionate, empathetic, etc. that have good practices that

genuinely want to be there. As an immigrant/refugee myself – I have had to take my parents/grandparents to get a resource and some of the people that we have run into have not come across that they really wanted to help us. They lacked compassion. It is nothing better than having someone help you who really wants to help. We also need translators.

- iii. Please be cognitive if the spaces are wheelchair friendly. All signs should have Braille on them. For whoever is staffed in the center, everyone must have sensitivity and diversity training. *ADD ELEVATORS, BIG TIME MISSING.
- iv. Maintain focus on adding to the community and not replacing spaces due to placement of teens and elders
- v. efficacy center- some way for teens and seniors to have a “direct pipeline” with people like the council and community leaders. Also making sure that Staff has quality training to handle all of the services provided.
- vi. Appreciate the desire of multiple different spaces for anything you want which allows more services to be catered to the community.
- vii. Missing: Partner with healthcare organizations to do weekly drop-ins with community members. Potential for mobile clinics.
- viii. No b/c it’s flexible spaces.

4. Scenario – Not everything can fit in the building and I need you to take out 2 things to make everything else fit – what 2 things would you take away? And why?

- a. African Born Seniors group
 - i. Learning spaces – takeaway 2 medium flexible spaces and just have 1 flexible space.
 - ii. Takeaway teen/senior spaces – 1 small flexible space (nap room)
- b. Teens for Tukwila
 - i. You don’t have to get rid of anything a lot of these ideas are very interchangeable (they overlap).
 - ii. Study room & Library – (for the library) b/c we already have a library close to the locations.
 - iii. Library (b/c we have the school library and the library on TIB) & college prep (students have counselors that we should use here at FHS)
 - iv. Light conversations/quiet space – it might not be used very much and people not be that quiet. & 1 of the maker space (b/c there’s a lot of them throughout the building)
 - v. Nap room & outdoor movies (outdoor movies b/c they can only be used occasionally)
 - vi. Outdoor movie (b/c it will be limited in how much it can be used) & library – (b/c there are libraries in a lot of places and most people have access to one)
 - vii. A lot of the ideas are repetitive and they should just be combined instead of taking things away.
- c. Community members
 - i. Takeaway the basketball area (outside/outdoor) and the tranquility garden (by itself). Perhaps the tranquility garden could be a part of the regular garden as scenery or as an art piece.
 - ii. Outdoor Space can go – just because what makes the teen and senior center unique is everything that is happening inside. Weather is not always that great. It rains a lot. People can be indoors and be safe and fun.

- iii. No nap room
 - iv. No A/V Lab, Music Recording, Podcasting. BUT PLEASE KEEP PODCASTING OUT OF EVERYTHING. Ooop... don't be mad but the laundry facilities.
 - v. In general if things start needing to be cut, make sure that we keep things that youth and seniors uniquely benefit from. Small flex spaces in the first center, some of the food centers could maybe be wrapped into the learning spaces.
 - vi. 1 of the medium-sized flex spaces in the learning spaces area and the maker spaces in the learning spaces.
 - vii. 1 of the medium-sized flex spaces in the learning spaces and the small flex space in the community gathering spaces.
5. Additional Comments
- a. Community members
 - i. Really have an area to interact outside – walkable and seating areas outside are important. Have a balcony on every level and rooftop gardens. Potentially outdoor floor lights could be very useful. Community Cookbook for the kitchen as people cook their recipes can be added to the community cookbook as a legacy for the kitchen.
 - ii. I want to reiterate for your notes that staffing training is going to be critical for the success of the center
 - iii. Sidenote: Equality to Senior Citizens and Teens in the spaces of the center. Previously at the Community Center, more services and organization was revolved around senior programs rather than teen programs. We don't want the reciprocation of prioritizing Senior Citizens against the Teens anymore. As far as my knowledge, Teens only received Teen Late Night and a Teen room while seniors had all these programs where they could come together.
 - iv. Sidenote: A staff reflective of the community would be most ideal with also higher ups having more sensitivity and social awakening training to understand their community most effectively
 - v. How do we create an environment where people feel comfortable exploring the whole building? Thinking about levels within the Spaces. Example Outdoor spaces could be a green house on the second floor, large outside space outside, and a tranquility garden up top. You want people to feel that they can go to multiple places within the building. Creating incentives for people to want to be all throughout the building even though we have spaces. We want a space where different levels can be used at the same time and still maintain their individual spaces. I can come in for one activity and then realize that there is a lot of other things that I can do. Giving people the visual ability to see what else is happening throughout parts of the building. How do we create a space where seniors can be gardening and then teens can see what's happening and express interest and then participate in a garden activity? The flex spaces allow for change to happen with the fast paced changing of the world we live in. Understanding that the teen world is changing at a fast pace and the senior pace may not be changing as fast. We need to respect the culture. Design to think about languages, colors, and numbers, or symbols (example – this is the

mountain floor so that people can identify where to go in the building without everything being in English). Think about the safety as well.
